Program Area: Performance Measurement

Date: 11/26/2012

Dear Grantees:

Below is an invitation by the National Transit Institute (NTI) to participate in a free webinar, December 13, 2012 from 2:00pm-3:30pm ET.

Please join us for the **TCRP Report 141: Methodology for Performance Measurement and Peer Comparison in the Public Transportation Industry** webinar:

TCRP Report 141 research developed and tested a methodology for performance measurement and peer comparison for (a) all fixed-route components of a public transit system, (b) the motorbus mode specifically, and (c) major rail modes specifically (i.e., light rail, heavy rail, and commuter rail). This report complements TCRP Report 88: A Guidebook for Developing a Transit Performance-Measurement System, which describes how to implement and use performance measurement on an ongoing basis at a transit agency. This report describes eight steps for conducting a benchmarking effort.
