12/05/2023	6.4.4	Updated sections to add NTD Non-FTA User Category and External Read Only role	
02/20/2024	6.4.5	Updated DOT User Role Category for Otrak to External Read ONLY	B. Khan
03/01/2024	6.4.6	Updated sections of recertifying users, add/update users, and review role requests regarding comment section in FACES	B. Khan
04/08/2024	6.4.7	Added new header (6.4 Reviewing Monthly User Comparison Report) and added details to Recertification . Edited User Management Section. Edited Reviewing Monthly User Comparison Report	B. Khan
05/24/2024	6.4.8	Added Verbiage to 6.2.2: Action: Assign Bulk Roles	B. Khan
08/19/2024	6.4.9	Updated all FTA TrIAD homepage screenshots with SMS tile	B Khan
09/20/2024	6.5.0	Updated all screenshots to reflect Welcome Page Footers	B Khan
11/22/2024	6.5.1.	Updated all screenshots to reflect Welcome Page Header	B Khan
02/19/2025	6.5.2.	Updated ECHO-Web Rules and added Echo Actor Role Matrix to Section 8 in Appendix B	B Khan
03/05/2025	6.5.3	Updated DGS, CRM, SMS Rules and added the Actor Role Matrices in Appendix B	B Khan

1. Introduction

1.1. What is FACES?

The Federal Transit Administration (FTA) maintains several web-based software systems that reside on the same FTA platform. The FTA platform is accessed via the website, <https://faces.fta.dot.gov/suite/>. The systems on this FTA platform include the Transit Award Management System (TrAMS), the National Transit Database (NTD), FTA Discretionary Grant System (DGS), the Joint Procurement Clearinghouse (JPC), and the FTA Access Control and Entry System (FACES). TrAMS is FTA's system for awarding and managing federal grants. NTD is FTA's system for tracking transit statistics on American transit systems. The JPC is available to FTA grant recipients for communicating about procurement needs and soliciting partners for a joint purchase. DGS is FTA's system for approving or rejecting grant applications and preparing funding scenarios. FACES is the user creation and management system for each user on the FTA platform. All other software systems on the FTA platform rely on FACES for user management functions. Within FACES, each software system has its own set of user roles access privileges.

2. User Access

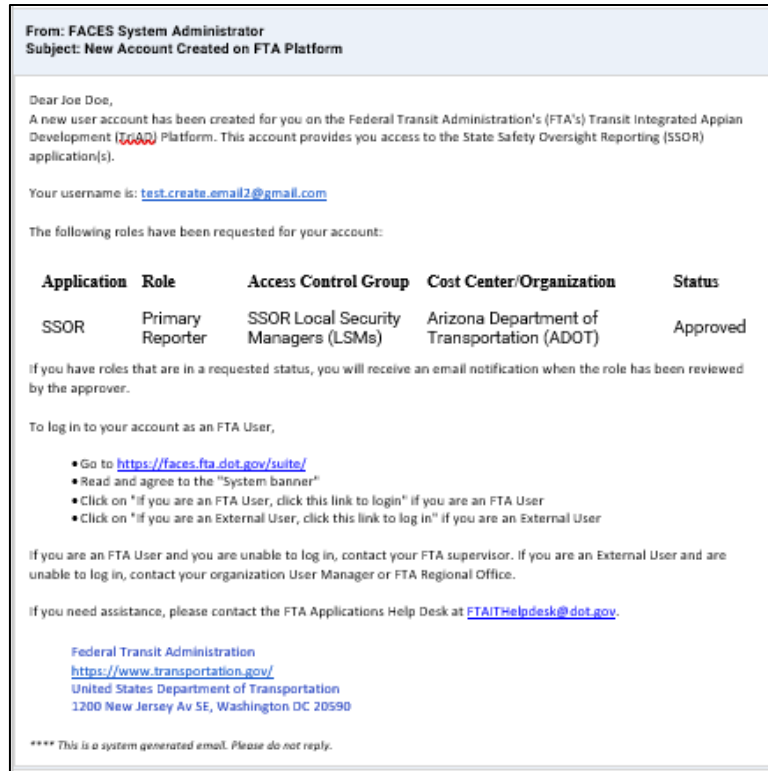

2.1. New User Account Creation

User access to each of the FTA software systems on the FTA platform, <https://faces.fta.dot.gov/>, is granted by either an organizational User Manager (UM), Local Security Manager (LSM), or Global Security Manager (GSM) within the appropriate system. An individual with one of those roles can create user accounts and assign users an initial suite of roles. Once an account has been created, the user will receive an automated email notification containing their username and access/login instructions,

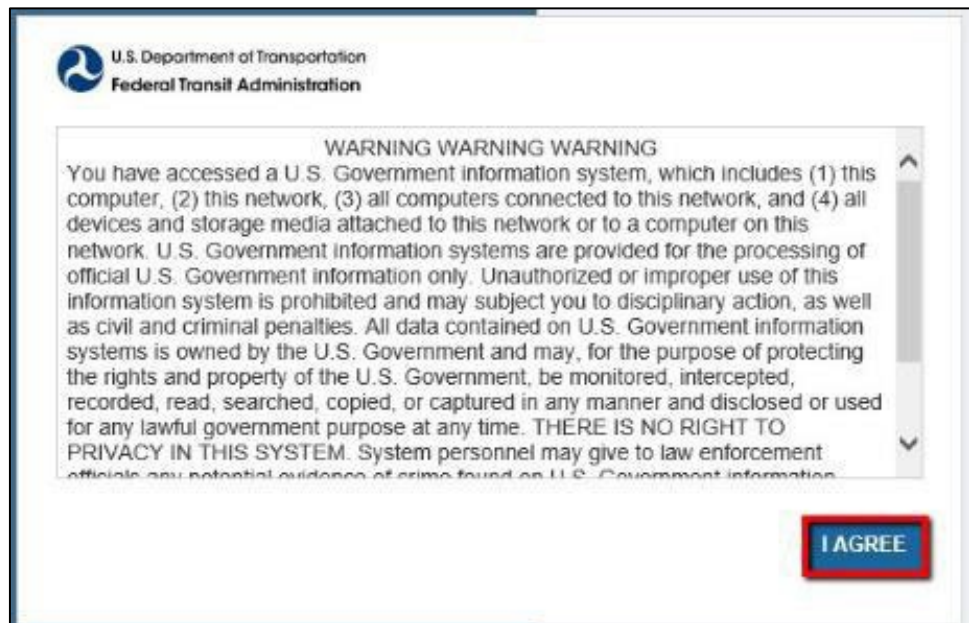

- **Username** – all usernames are initially set to the email address associated with the user's account. The username cannot be changed. If a user needs to update their email address, they will need to contact FTAITHelpdesk@dot.gov for assistance.

2.1.1 Non-FTA User Setup

New non-FTA users will receive an automatic email notification from FACES once their account is created. It will look like the one below. If you need an account on the TriAD platform, then reach out to your User Manager or Local Security Manager.

- 1) Using the email, select the URL (internet link) to access the site, <https://faces.fta.dot.gov/>.
- 2) Read the security policy and select **I AGREE**.

- 3) On the login page, select the **If you are an External User, click this link to log in** link next to **Sign In**.

U.S. Department of Transportation
Federal Transit Administration

Username

Password

Forgot your password?

If you are an FTA Employee, click this link to log in

If you are an External User, click this link to log in

SIGN IN

- 4) Users will be redirected to Login.gov where all External users will need to initially create and register an account.

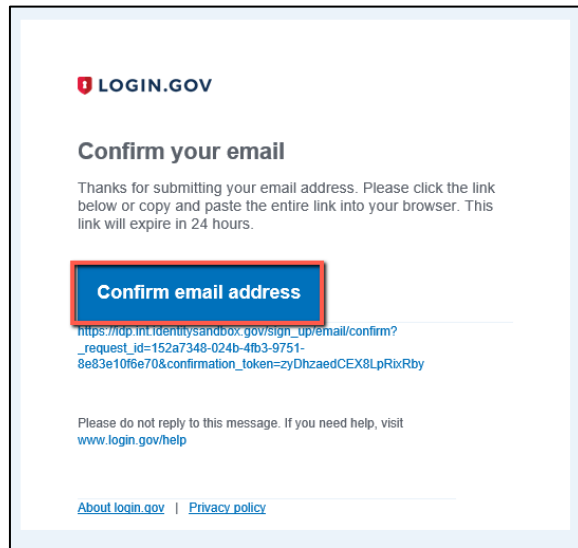

- 5) If this is the first-time using Login.gov the user will need to Click on **Create an account**.

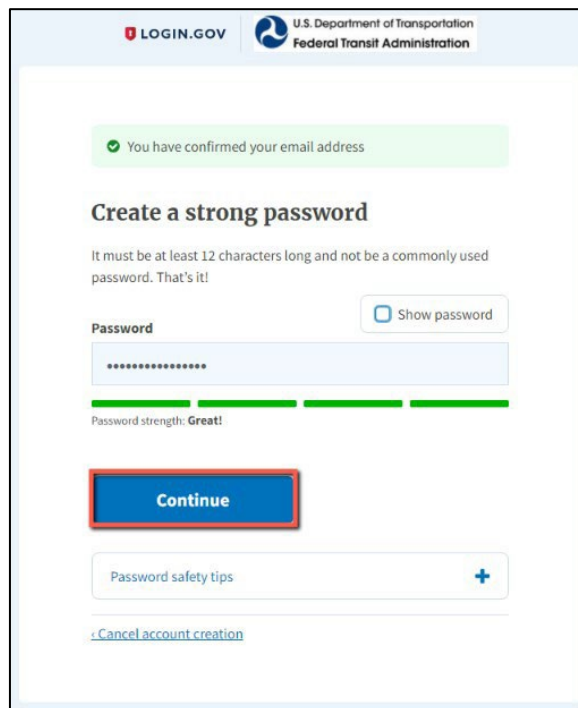

- 6) Enter your email and check off the box accepting login.gov **Rules of Use**.

- 7) Login.gov will send you a “Confirm Your Email” email. In that email, click on “Confirm email address”.

- 8) The user is redirected back to login.gov and is asked to create a strong password and click Continue.

- 9) Select one of the five authentication method options and follow the setup instructions.
- 1) **Security Key** - A security key is typically an external physical device, like a USB, that you plug into your computer. The key is linked to your accounts and will only grant access to those

accounts once the key is plugged in and activated. Login.gov requires security keys that meet the [FIDO \(Fast Identity Online\) standards](#).

- 2) **Government Employee ID** - Physical PIV (personal identity verification) cards or CACs (common access cards) are secure options for federal government employees and military personnel. These cards, with encrypted chip technology, are resistant to phishing and difficult to hack if stolen.
- 3) **Authentication Application** - Authentication applications are downloaded to your device and generate secure, six-digit codes you use to sign into your accounts.
 - i. Google Authenticator
 - ii. Authy
 - iii. LastPass
 - iv. 1Password
 - v. OTP Manager
 - vi. Authenticator

This method offers more security than phone calls or text messaging against phishing, hacking, or interception. A one-time passcode is generated by the application each time you sign in to login.gov.

- 4) **Phone** - A unique security code is sent to that phone number via SMS or phone call each time you sign in to your login.gov account. Each security code expires after ten minutes and can only be used once. You will receive a new security code each time you sign in to your login.gov account.
- 5) **Backup codes** - are an accessible option for users who do not have access to a phone. However, backup codes are the least secure option for two-factor authentication. Login.gov will generate a set of ten codes. Backup codes must be printed or written down which makes them more vulnerable to theft and phishing. After you sign in with your username and password, you will be prompted for a code. Each code may be used only once. When the tenth code has been used you will be prompted to download a new list.

LOGIN.GOV U.S. Department of Transportation
Federal Transit Administration

Authentication method setup

Add a second layer of security so only you can sign in to your account.

i Keep this information safe. You will be locked out and have to create a new account if you lose your authentication method.

Select an option to secure your account:

- ☐ **Security key**
Use a security key that you have. It's a physical device that you plug in or that is built in to your computer or phone (it often looks like a USB flash drive). Recommended because it is more phishing resistant.
MORE SECURE
- ☐ **Government employee ID**
Insert your government or military PIV or CAC card and enter your PIN.
MORE SECURE
- ☐ **Authentication application**
Get codes from an app on your phone, computer, or tablet. Recommended because it is harder to intercept than texts or phone calls.
SECURE
- ☐ **Phone**
Get security codes by text message (SMS) or phone call. Please do not use web-based (VOIP) phone services.
LESS SECURE
- ☐ **Backup codes**
We'll give you 10 codes. You can use backup codes as your only authentication method, but it is the least recommended method since notes can get lost. Keep them in a safe place.
LEAST SECURE

Continue

[Cancel account creation](#)

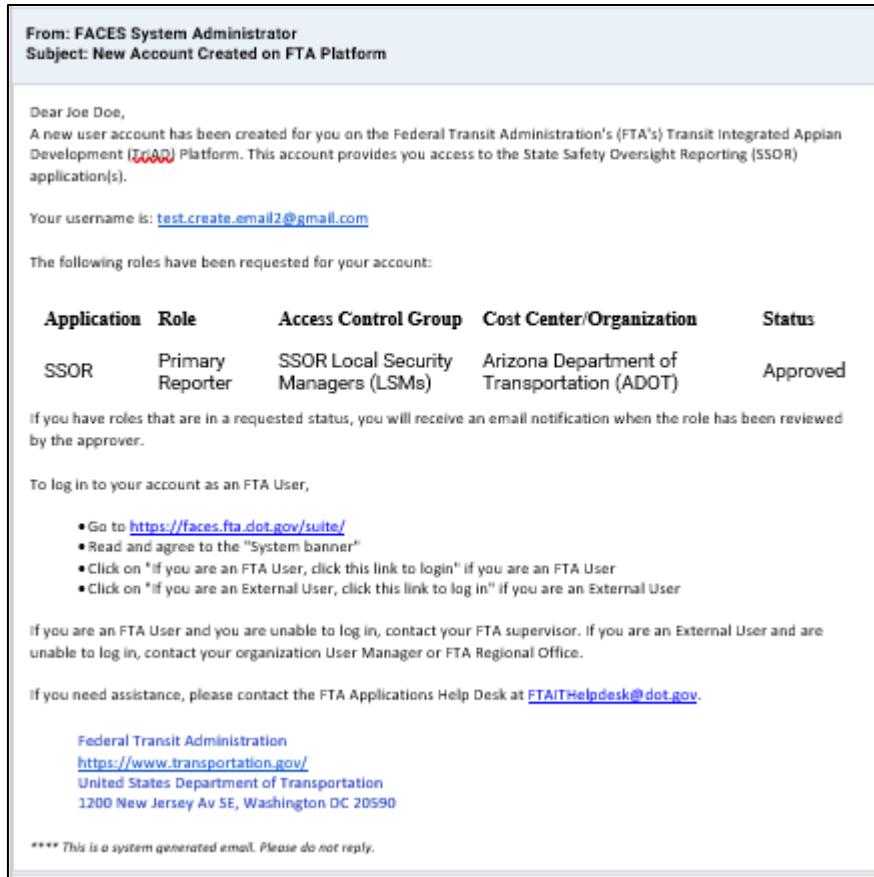

- 6) Once the authentication method has been set up, the user will be redirected to sign in to Login.gov using the credentials just created.

7) The user will be directed to the **FTA Homepage**.

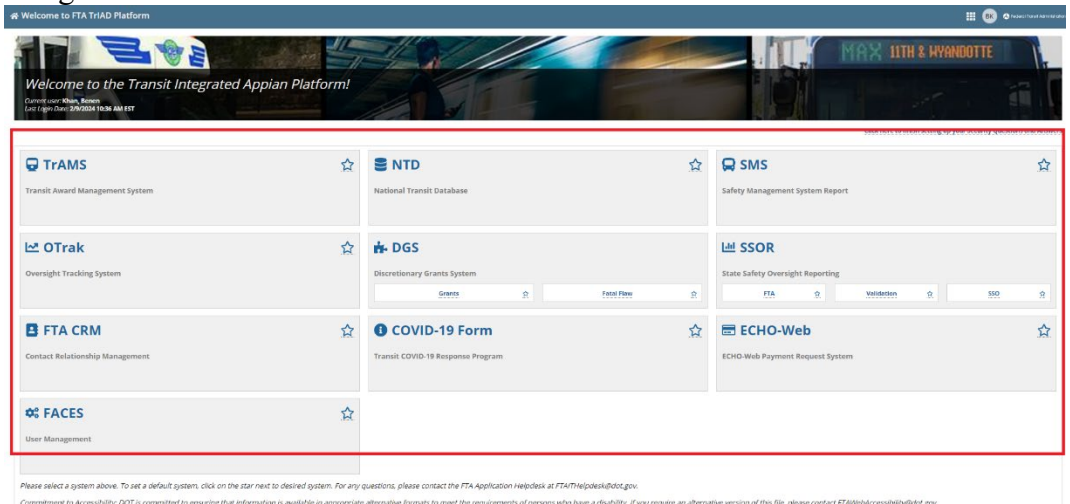

2.1.2 FTA User Setup

New users will receive an automatic email notification from FACES once their account is created. If you need an account on the TriAD platform, then reach out to your User Manager or Local Security Manager.

1) The email will be formatted much like the one below:

- 2) Using the email, select the URL (internet link) to access the site, <https://faces.fta.dot.gov/>.
- 3) The user will be automatically logged while inside the network or using VPN.

All new users will have to set up **Security Questions and Answers (Q&As)** to ensure the security of the account and to provide a mechanism to re-establish access when lost due to a lockout, etc. **It is strongly recommended that all users set up account security questions.** Click on, “Click here to finish setting up your Security Questions and Answers” to continue.

- 4) On the **Manage Security Questions** page, select three questions and provide appropriate answers that can be easily recalled when needed. A few rules apply to the setting of Security Q&As:
 - a. All users can set up and manage three (3) security questions through the **Manage Security Questions** page.
 - b. Questions must be selected from an FTA approved list and 3 distinct questions must be selected.
 - c. Answers must contain at least three (3) characters and the same answer cannot be used for more than one question.
 - d. Answers are case insensitive (e.g., “dog” is the same as “DOG”).
 - e. Once questions are established, users must correctly answer their existing questions to change them. [Section 5.2.3](#) address how to change existing security questions.
- 5) Click **Submit**.

- 6) Users will receive an automated email notification that their questions have been updated.

2.2. Logging In

FACES manages user access to the FTA platforms via the FACES login page, accessed via a web browser. Two login methods are available, but one is only

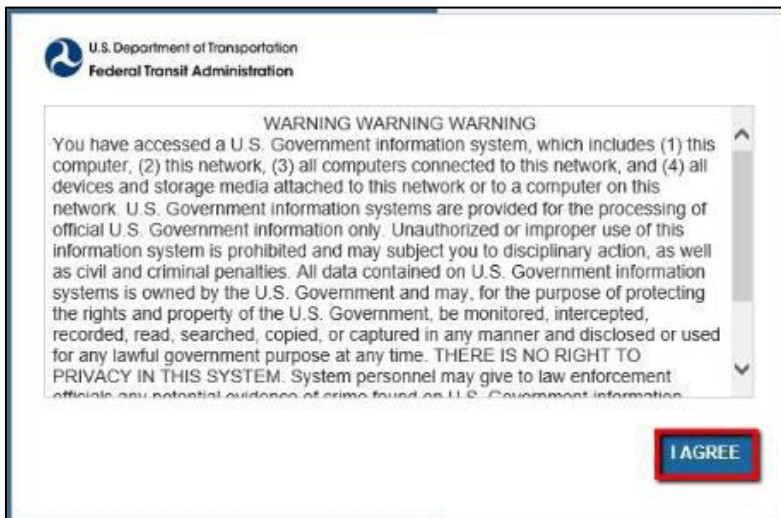

accessible to FTA employees using FTA's internal network. User access to software systems like TrAMS and NTD is based on the user's assigned **Roles**.

2.2.1 Standard Login (Non-FTA Employee)

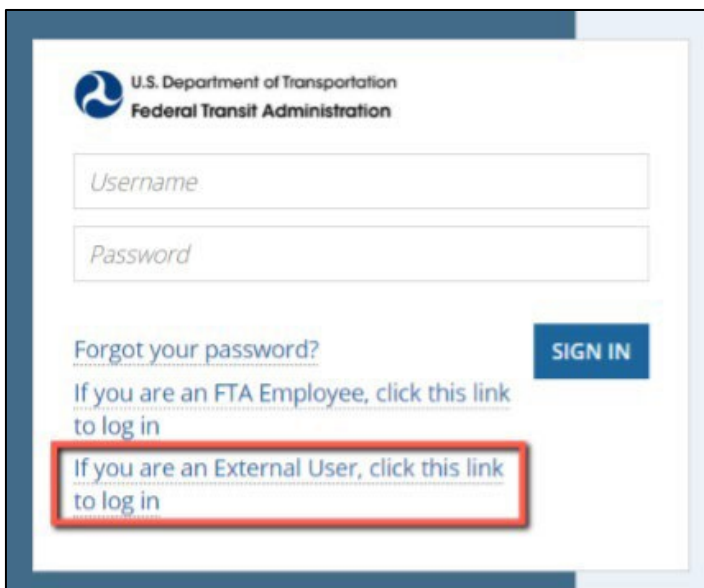

Non-FTA Employees will be redirected to Login.gov for authentication.

To login:

- 1) Open a web browser and enter the FACES URL,
<https://faces.fta.dot.gov/>.

- 2) Read the security policy and click **I AGREE**.
- 3) On the login page, select the ***If you are an External user, click this link to log in*** link next to **Sign In**.

- 4) Users will be redirected to Login.gov where all external users will need to sign in with the account that was created in section 2.1.1 and will need to be authenticated with the authentication method that was set up.

- 5) The user will be taken to the **Homepage**, where the user has the option to click the system they wish to use. If the user has access to more than one FTA platform (TrAMS, NTD, DGS, SSOR or FACES) all those options will be available to click.

Welcome to the Transit Integrated Appian Platform!

TrAMS Transit Award Management System	NTD National Transit Database	SMS Safety Management System Report
OTrak Oversight Tracking System	DGS Discretionary Grants System Grants Fatal Flaw	SSOR State Safety Oversight Reporting FTA Validation SSO
FTA CRM Contact Relationship Management	COVID-19 Form Transit COVID-19 Response Program	ECHO-Web ECHO-Web Payment Request System
FACES User Management		

Please select a system above. To set a default system, click on the star next to desired system. For any questions, please contact the FTA Application Helpdesk at FTAHelpdesk@dot.gov.

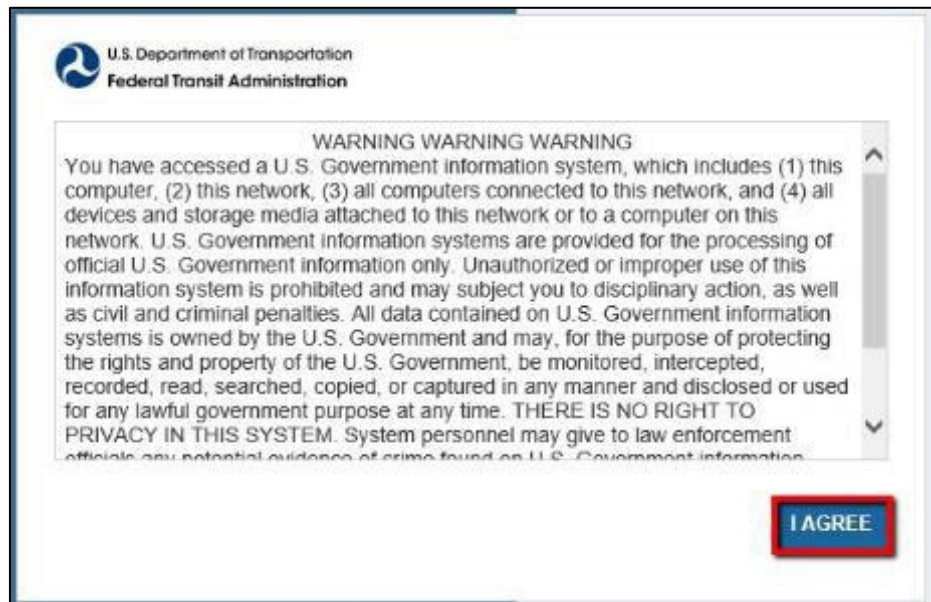

Commitment to Accessibility: DOT is committed to ensuring that information is available in appropriate alternative formats to meet the requirements of persons who have a disability. If you require an alternative version of this file, please contact FTAWebAccessibility@dot.gov.

2.2.2 FTA Employee Login

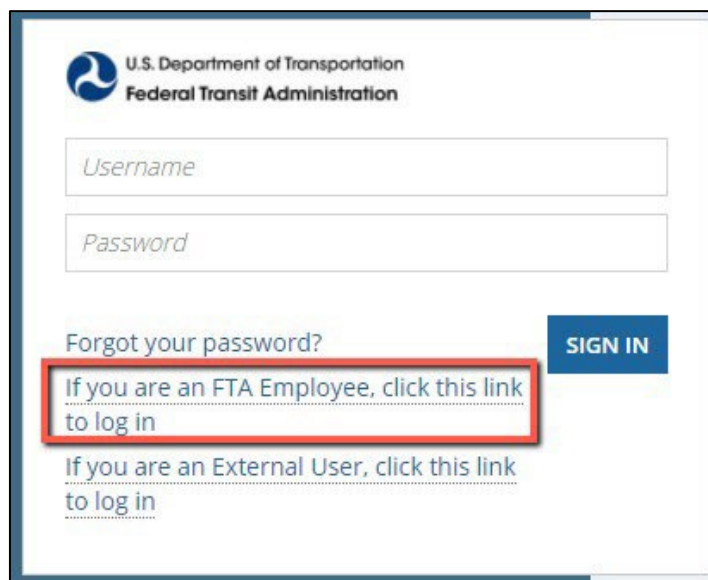

FTA employees should access FACES via the FTA network.

To log in:

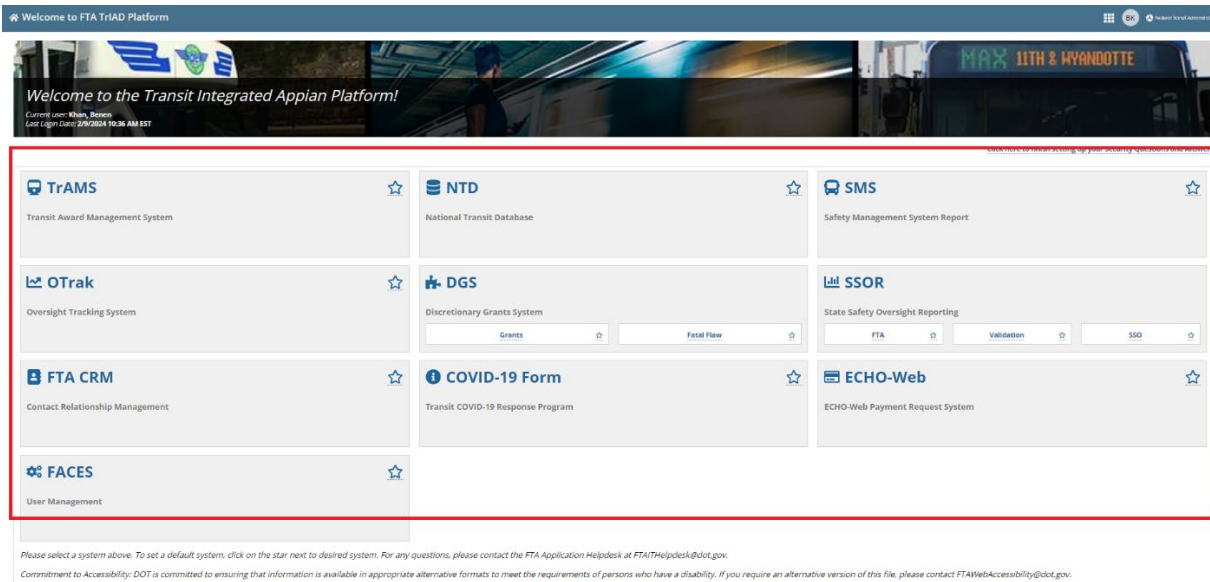

- 1) Open a web browser and enter the FACES URL, <https://faces.fta.dot.gov/>.

- 2) Read the security policy and select **I AGREE**.
- 3) On the login page, select the ***If you are an FTA Employee, click this link to log in*** link.

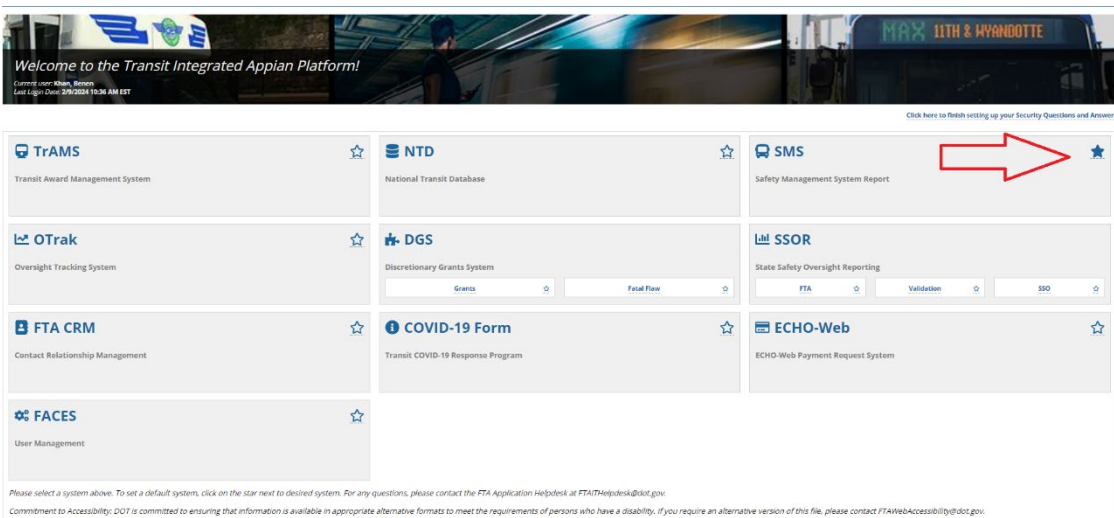

- 4) FTA Users will be automatically taken into the TrIAD Platform home page if they are in FTA network or logged into VPN.
- 5) On the Homepage, the user has the option to click the system they wish to use. If the user has access to more than one FTA platform (TrAMS, NTD, DGS, SSOR or FACES) all those options will be available as an option on the Homepage.

2.2.3 Setting A Default System

The Homepage has the option for a user to select an FTA System to become the default system they log into the next time the user logs in. This is done by clicking on one of the stars next to the system you wish to make your default.

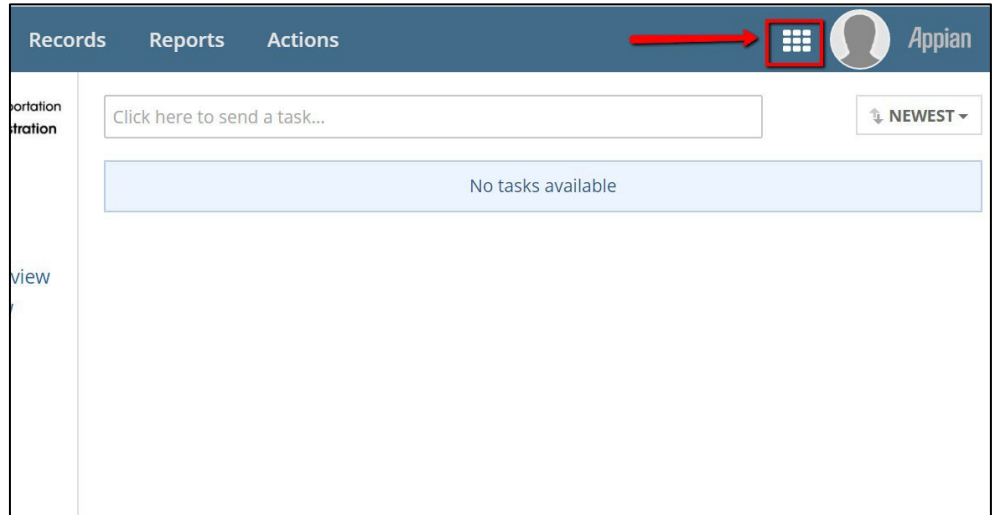

When a default system is selected, the next time a user logs in, they are taken to the default system and bypass the Sites Splash page.

2.2.3.1 Changing User Default System or Return to Homepage

If a user wishes to change their default system to another system, they can do so by returning to the Homepage. To return to the home page,

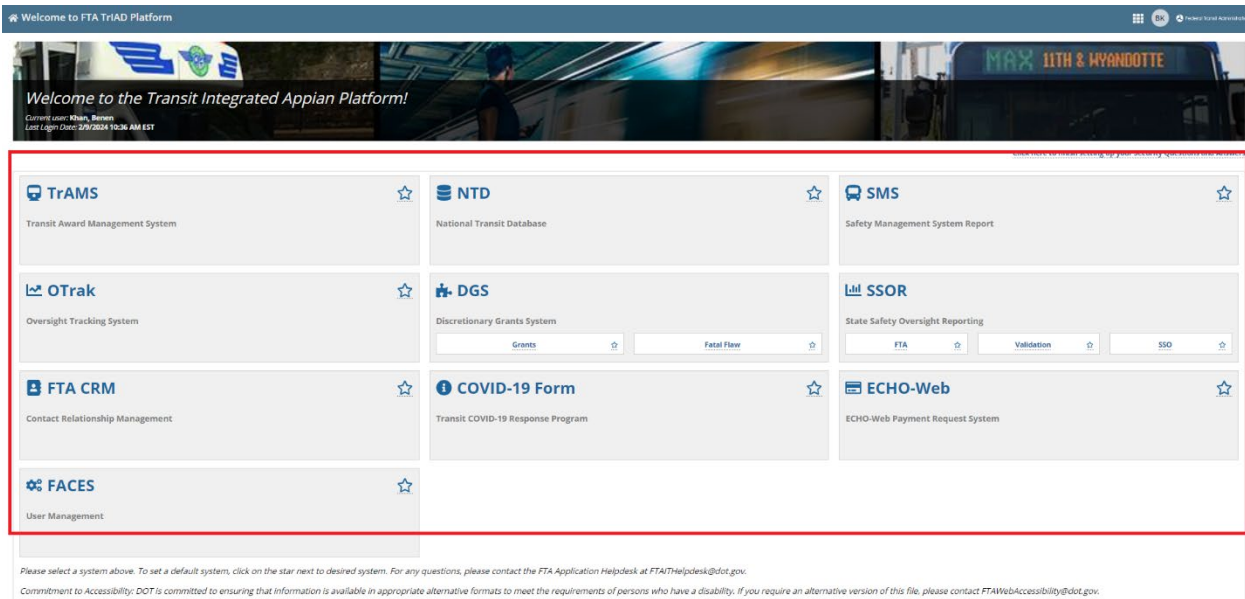

- 1) Click on the **NAVIGATION** button at the top right corner, next to the avatar.

- 2) In the drop-down menu, find Home and click on it.

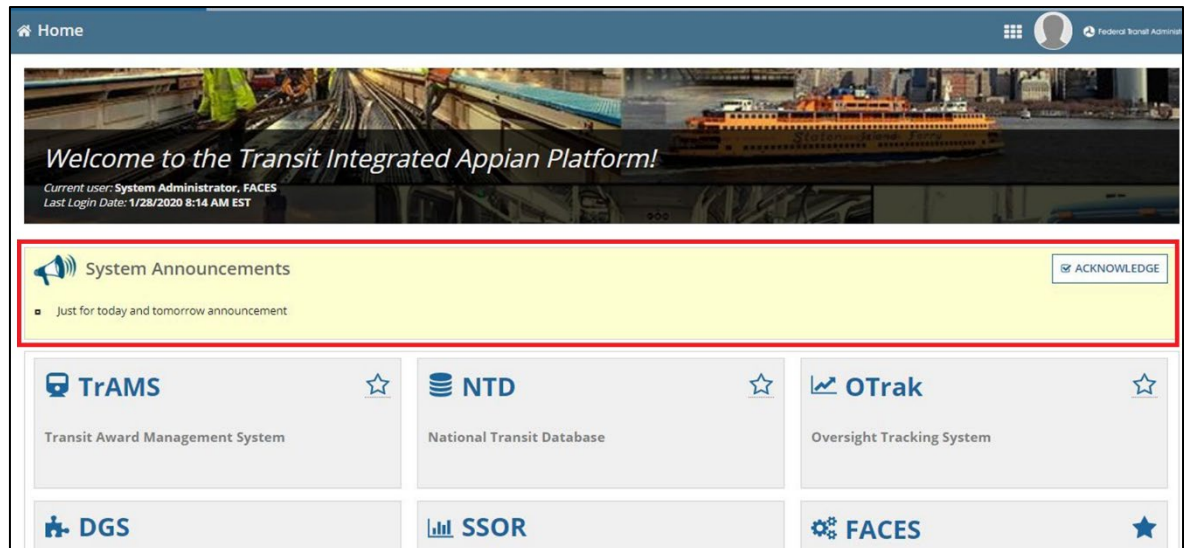

- 3) The user is taken back to the Homepage and can select another system to make a default system.

- 4) The next time the user logs in, they will then be taken to the new default system.

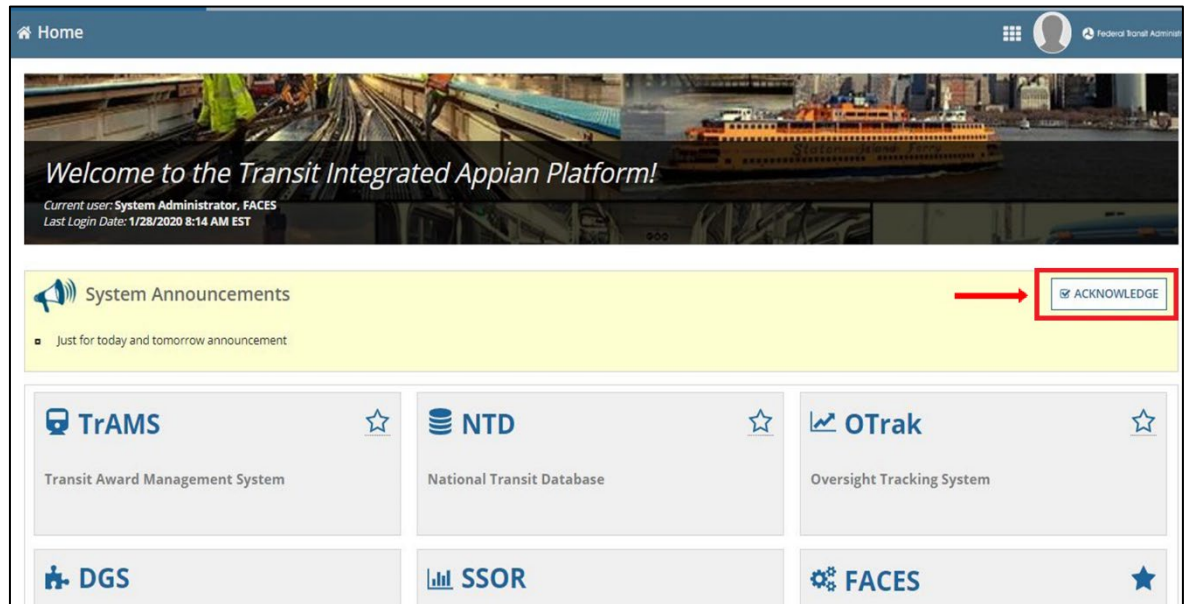

2.2.4 System Announcements

System Announcements are often needed to communicate to users about important information. When an announcement is created, it is posted in a yellow banner in the Homepage as shown below.

All users regardless of having set a default system (4.2.3 Setting A Default System) or not, will be redirected to the FTA Homepage when they log in. System Announcements will remain visible on the Homepage until they expire. The user can bypass being automatically directed to the Sites Splash page when they log in by acknowledging the System Announcement.

To acknowledge the System Announcement(s), click on **ACKNOWLEDGE** to the right of the banner.

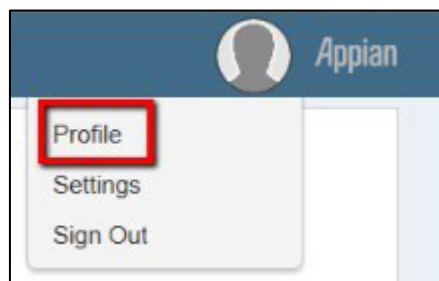

The next time the user logs in, they are directed to their default system if they elected one. However, anytime there is a new System Announcement, the user will always be directed to the FTA Home page when they login until they have acknowledged the announcement.

2.2.5 Accessing User Record

A user can access their own profile in two different ways: from either the **Account** information area or through the **Records** tab.

To view your own **Profile** from the **Account** information area:

- 1) Select the down arrow next to the user's name to reveal the dropdown menu and click **Profile**.

- 2) The user records **Summary Page** displays.

2.3. Account Information

2.3.1 Non-FTA User Setup

FACES stores user profile information such as name, username, address, contact information, security questions, and PINs. User information displays on the user's record as discussed in [Section 6.4](#). Users can self-manage security questions and PINs (no other user can set up security questions or PINs for another user). Administrators and appropriate chain of command (e.g., User Managers) can modify specific user profile information and role assignment.

There are explicit rules controlling access to user information within the system:

- 1) FTA users cannot edit their **Profile** information (this is automatically handled via a nightly data sync with FTA systems).
- 2) Non-FTA users can edit all **Profile** information other than their username AND email address.
- 3) **User Managers** can edit **Profile** information for users in their organizations.
- 4) **Local Security Managers (LSMs)** can edit the user **Profile** of users in their FTA Regions/Cost Centers.
- 5) **Global Security Managers (GSMs)** can edit the user **Profile** of any non-FTA user in their system (e.g., a TrAMS GSM can manage the profile of any non-FTA user in TrAMS).
- 6) All users can self-manage their security questions and, if applicable, their PINs.

2.3.2 Account Settings

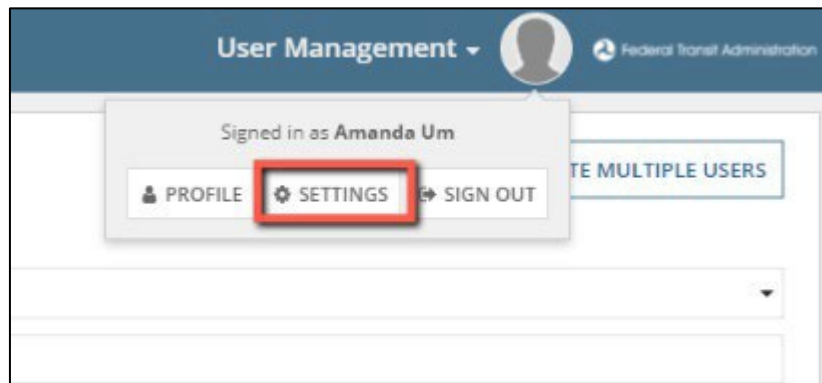

The account settings page provides a way for the user to manage their own preferred localized settings for date/time formats, language, and time zone.

Non-FTA users can also change their password via the settings page. The following settings can be adjusted:

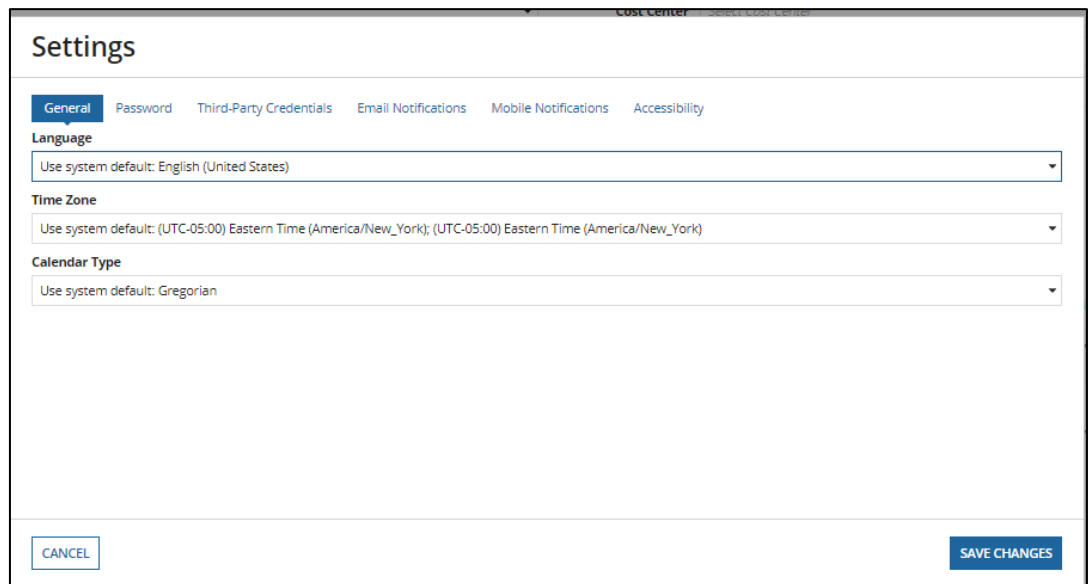

- Language
- Time Zone
- Calendar Type
- To access user account

Settings:

- 1) Select the icon (circular image) in the top right-corner of the screen to reveal a dropdown menu and click **Settings**.

- 2) The **General** tab displays.

- 3) Using the dropdown lists for Language, Time Zone, and Calendar Year, make whatever adjustments are necessary.

Note:	<i>At present, English is the only language available for selection.</i>
--------------	--

- 4) Click ***Save Changes*** to update the settings.

2.4. Passwords

Login Passwords are handled differently for FTA Employees and Non-FTA Employees. Please make sure to review the appropriate password related sections for FTA or Non-FTA Employees.

2.4.1 Forgotten Passwords (FTA Employees Only)

If the user has forgotten their password, they will need to contact 5-Help to reset their password.

- **Internal:** 5-HELP (x5-4357)
- **External:** (202) 385-4357
- **Toll-free:** (866) 466-5221

2.4.2 Forgot Login.gov Password (Non-FTA Employees Only)

If a non-FTA Employee has forgotten their password, they can reset it by using a link on the Login.gov screen.

To reset a forgotten password:

- 1) On the Login.gov sign in screen, click on Forgot your password?

The screenshot shows the Login.gov sign-in interface. At the top, there is a header with icons of a person, a shield, and a computer. Below this, a message states: "dev5 is using login.gov to allow you to sign in to your account safely and securely." The form includes an "Email address" field, a "Password" field with a "Show password" checkbox, a blue "Sign in" button, and a "Create an account" button. Below the buttons, there is a link "Sign in with your government employee ID". At the bottom, there are four links: "Back to dev5", "Forgot your password?", "Security Practices and Privacy Act Statement", and "Privacy Act Statement". A red arrow points to the "Forgot your password?" link.

- 2) Enter the users email address and click Continue.

A screenshot of a web form titled "Forgot your password?". Below the title is a subtitle: "Don't know your password? Reset it after confirming your email address." There is a text input field labeled "Email". Below the input field is a blue button labeled "Continue". At the bottom left, there is a link labeled "Cancel".

Password safety tips +

- 5) The user can sign in using their email and newly created password.

2.4.3 Reset Login.gov Account (Non-FTA Employees Only)

If a user is unable to login to Login.gov using their password and authentication method(s), they will need to delete their account. As a security measure, Login.gov requires a two-step process and 24-hour waiting period if you have lost access to your authentication methods and need to delete your account.

- 1) Sign in with your email and password.
- 2) On the authentication page (enter your security, app, or backup code; PIV/CAC card; or security key), click on “Choose another security option”.

- 3) Scroll to the bottom and click on the “deleting your account” link.

LOGIN.GOV

Select your authentication method

You set these up when you created your account

- ☒ **Text message**
Get security code via text/SMS or phone call to ***-4041.
- ☐ **Automated phone call**
Get security code via text/SMS or phone call to ***-4041.
- ☐ **Government employee ID**
Use your PIV/CAC card instead of a security code.

Continue

If you can't use any of the authentication methods above, you can reset your preferences by [deleting your account](#).

[Cancel](#)

- 4) Read through all the information carefully to make sure deleting your account is your only option.
- 5) Click on “Yes, continue deletion”.
- 6) You will receive two emails.
 - The first email confirms Login.gov received your request. Your account is not yet deleted. Additional action is required.
 - The second email is sent to you 24 hours later. Follow the directions in that email to complete the deletion process.

3. System Layout

The software systems residing on the FTA Platform, <https://faces.fta.dot.gov>, all share a common layout. This section provides a high-level view of the system and how to navigate, find, and work with data.

3.1. Account Information

Account Information provides access to information specific to the user. It lists the user's first and last name. By selecting the username, the user will be presented with the following three options:

- 1) **Profile** – Provides a means for the user to view and update their individual profile information, and to set their Personnel Identification Number (PIN). Refer to [Section 4](#), for more details.
- 2) **Settings** – Opens the Settings Page where the user can select language and time zone and subscribe to news feeds. Non-FTA users can also change their password here.
- 3) **Sign Out** – Select **Sign Out** to log out and exit FACES.

3.2. Manage Users

The **Manage users** tab provides access to view all users that the logged-in user is approved to see (generally, users within their same organization). More information on the content of user records is in [Section 3.4](#) of this user guide.

Selecting a specific record displays a **User Summary Page**, containing detailed information associated with that selected user. The specific pages of the user record are discussed in [Section 3.4](#).

3.3. Actions

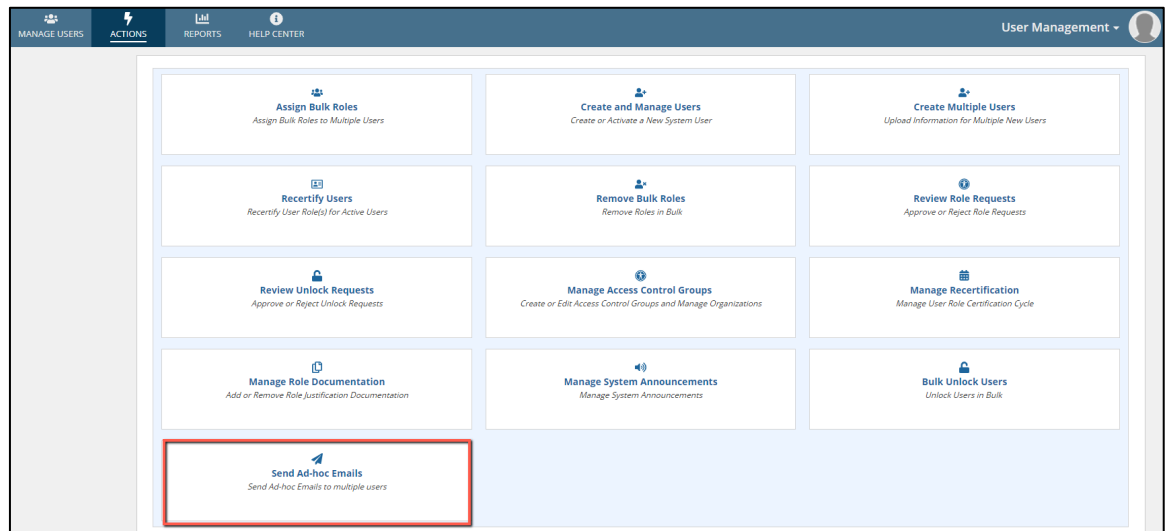

The **Actions** tab provides a list of actions that the logged-in user is approved to take within the system. In general, FACES actions are only visible to users with user management roles (e.g., User Managers, Local Security Managers, and Global Security Managers). In the case below, the User Manager is presented with a list allowing them to create and manage users (even multiple users), manage role documentation, review unlock requests, and perform searches for specific records. Users will see other actions specific to their roles in the other FTA software systems. The **Actions** available to any user are limited to their **role(s)**.

Selecting a specific Actions displays detailed information related to the Actions. The specific pages of the Actions are discussed in [Section 6.5](#).

3.3.1 Action: Send Ad-hoc Emails (GSMs Only)

The Send Ad-hoc Emails action is available for all GSMs. This action can be used to send system-specific and user-specific emails for general information purposes.

To create and send an Ad-hoc email:

- 1) Under the Actions Tab click on Send Ad-hoc Emails.
- 2) On the next page the GSM can use the User Filters section to narrow down the audience for which the Ad-hoc email is intended for.

3.4. Reports

3.4.1 User Details Report

The **Reports** tab contains all reports that the user has access to. The purpose of this report is to provide a way to search for users by different characteristics. The logged-in user can only search for other users that he or she is approved to see (the same set of users that displays on the User records list in [Section 3](#)).

Selecting an individual report from the list will launch the report process that presents the finished report details to the page. Selecting **User Details Report** from above presents:

Username	Name (Last, First)	System	Access Control Group	Cost Center	Organization	Role	Last Certified Date	Created Date	Modified Date	Last Login Date	Status
----------	--------------------	--------	----------------------	-------------	--------------	------	---------------------	--------------	---------------	-----------------	--------

The report page provides several ways to filter the data presented. In most cases, the report filter is pre-determined by the logged-in user's characteristics (**Role Category**, **Access Control Group**, **Cost Center** and/or **Organization**). The filter can be further limited by Username, or by partial name (first or last). The list can also be filtered by users who are **Active**, **Locked**, or **Deactivated**.

GENERATE REPORT

3.4.2 Recertification Status Report

After the end of each recertification window, FACES will generate a recertification status report, accessible by Global Security Managers and Local Security Managers only (see Section 8.1 for [Recertification Process](#)).

How a **Certifier** can view recertification status report:

- 1) **Certifier** log into System and clicks Reports.
- 2) User clicks *Recertification Status Report*.

- 3) The **System** displays Recertification Status Report.

- 4) The **Certifier** has the filtering options by systems, year, role, recertification group, organization, and access control group.

3.5. Help Center

The **Help Center** tab contains the FACES User Manual, Frequently Asked Questions (FAQs), and System Information.

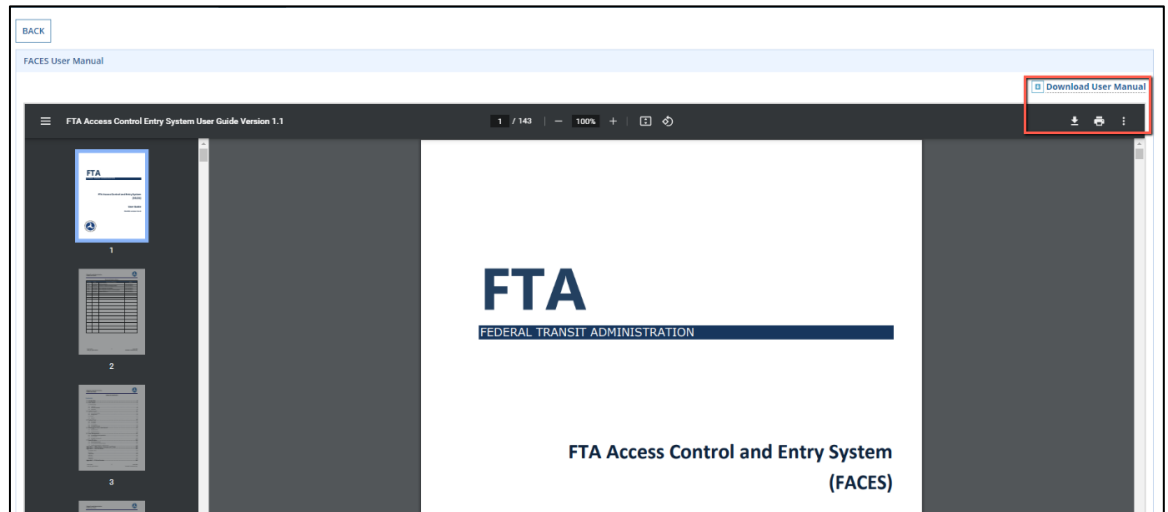

3.5.1 FACES User Manual

To access the User Manual/User Guide, click on FACES User Manual.

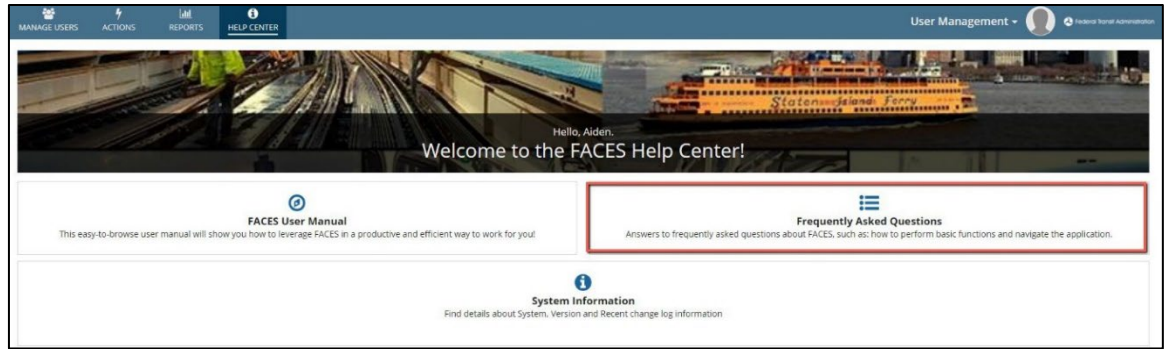

On this page the user can view it directly, download, or print it out.

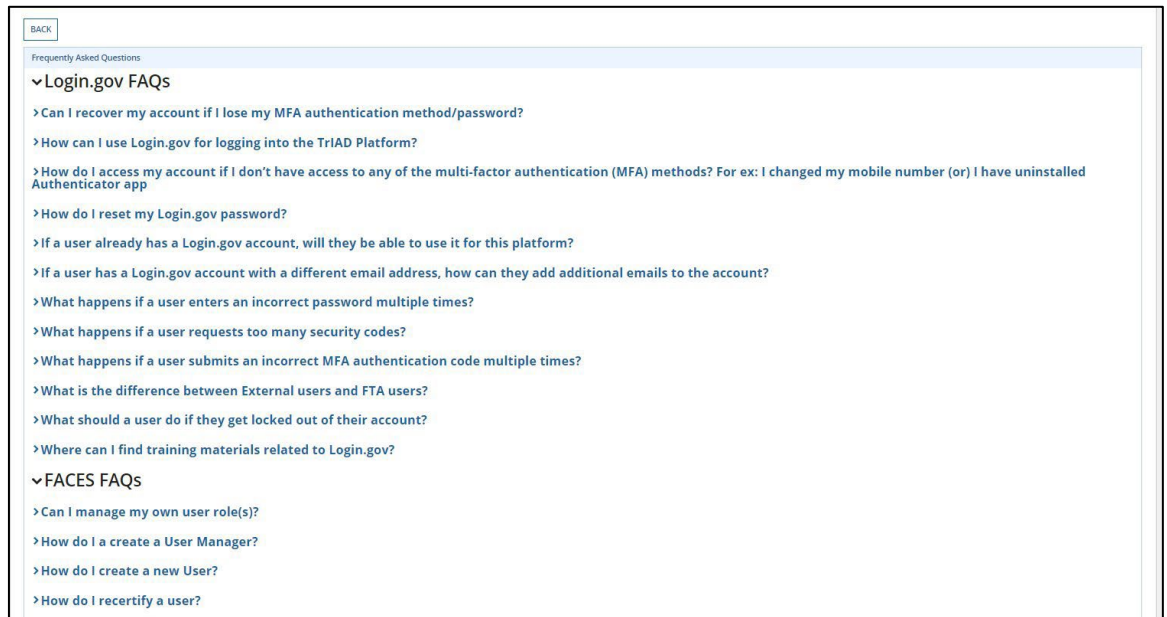

3.5.2 Frequently Asked Questions

Users can click on Frequently Asked Questions to review helpful answers for questions that are frequently asked.

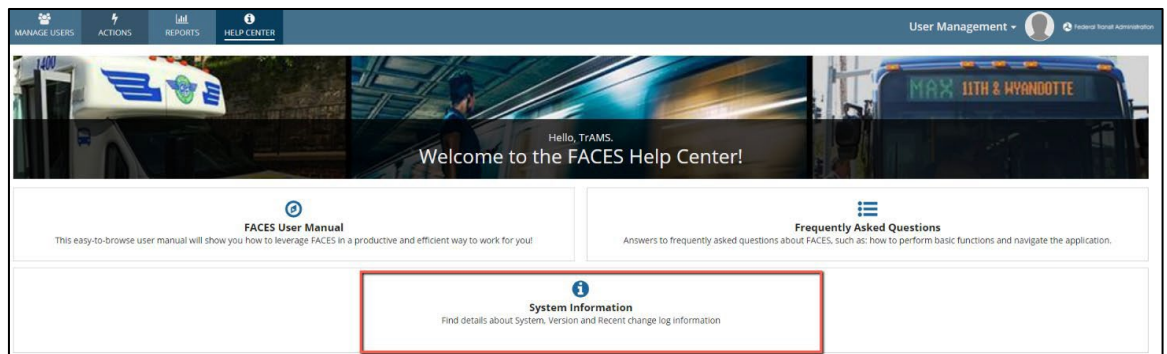

Responses for each question can be expanded by clicking on a question.

3.5.3 System Information

System Information allows a user to view information on the latest version of the system and provides Help Desk information to the user should they encounter any issues with FACES.

4. System Users

A User Record includes all information directly related to the user's **Profile** (e.g., name, address, title, and role(s), audit history). It also includes all news items specific to the user and any Kudos received. Users may see other staff members' **User Summary** page and **User Details** within their organization.

Each user may manage their own **Profile** information. Some user information may be edited by the individual user. User roles are granted and managed by **User Managers**, **Local Security Managers (LSMs)**, and **Global Security Managers (GSMs)**.

4.1. User Types

There are three account types used to classify each user on the FTA platform: FTA users, Organization users (e.g., TrAMS Recipient, DGS Recipient and NTD Reporter), and External users.

- 1) **FTA Users:** This user type includes FTA employees and federal contractors who directly support FTA. All FTA users have FTA email accounts ending in @dot.gov.
- 2) **Organization Users:** This user type includes individuals who are employed by or support an organization that uses an FTA platform software system. The users are grouped by their organization(s). This user type includes TrAMS Recipients, DGS Recipients, and NTD Reporters.
- 3) **External Users:** This user type includes individuals external to FTA but provide support or oversight to one of the FTA platform software systems. External users have three sub-types: Auditors, Contractors, DGS DOT users and Department of Labor (DOL) users.

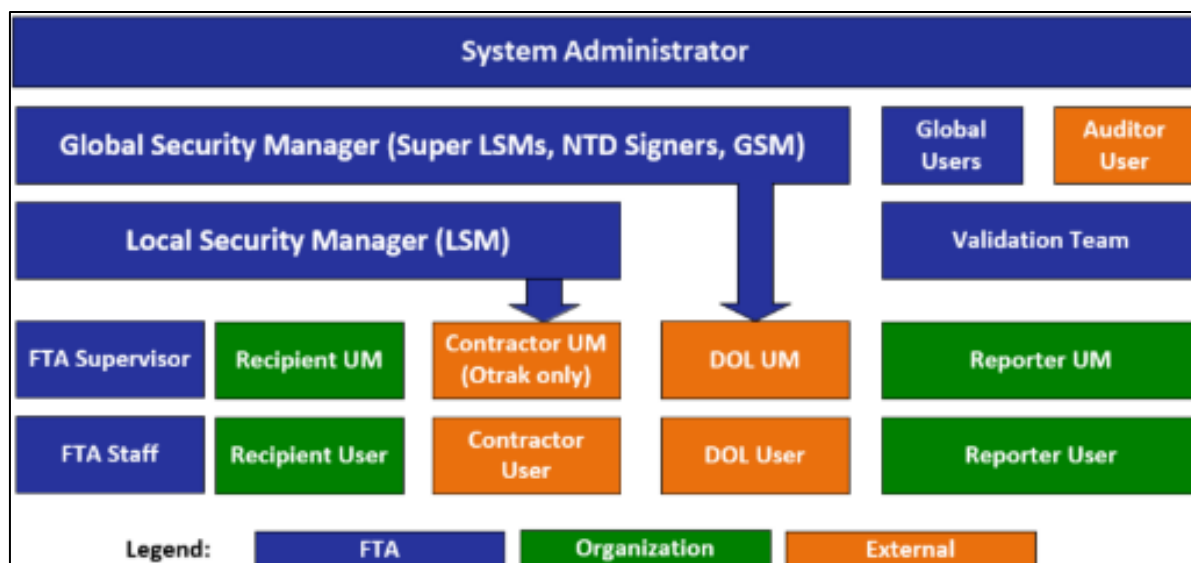

The types of roles that a user can be granted are specific to the user's account type. FACES defines standardized role types, role hierarchy, and security for the various software systems on the FTA platform. New roles and user categories may be incorporated as needed in the future to allow FACES to support additional software systems and to meet changing requirements.

4.2. User Roles

User roles on the FTA platform are grouped by role category (e.g., FTA Staff, TrAMS Recipient Users, TrAMS Reporters and DGS Recipient Users).

Each organization user has an assigned *User Manager*. The **User Manager** assigns roles to each user in their organization in accordance with the rules specific to their FTA software system (e.g., TrAMS, NTD, SSOR, etc.). Users may be assigned one or multiple roles within their organization. Roles assigned to each user control the **Actions** available to a user and the **Tasks** assigned to the user.

The image below provides an outline of all user roles within the FACES landscape. Each will be further defined in subsequent paragraphs.

The following tables lists the available user roles that may be assigned. For definitions of each role and associated privileges, please see the corresponding system user guide.

	Organization User Roles	FTA User Roles	External User Roles
NTD Reporters	1) CEO 2) CEO Delegate 3) Editor 4) NTD Contact 5) Safety Contact 6) Safety Editor 7) Safety Viewer 8) User Manager 9) Viewer	System Administrator 1) System Administrator Global Roles 1) FTA Signer 2) FTA Viewer 3) Global Security Manager (GSM) 4) Global Viewer 5) User Details Report Global Viewer FTA Staff 1) Local Security Manager (LSM) Validation Team 1) Validation Analyst 2) Validation Ops 3) Validation PM 4) Validation QA	1) Auditor

		FTA Staff:	
		1) Local Security Manager (LSM)	

Table 1 – Organization User Roles**4.2.1 User Visibility**

There are explicit rules controlling access to user records and user information within the system. The following rules independently to each FTA system (e.g., TrAMS, NTD):

- 1) Organization users can see all other users within their organization(s). For example, a user who belongs to ‘Transit Organization Blue’ will see all other users with roles in ‘Transit Organization Blue’.
- 2) Organization users cannot see FTA user records, external user records, or users outside their organizations.
- 3) FTA users can see all other FTA users within their system (e.g., TRAMS, NTD, DGS).
- 4) FTA users can see all organization users who belong to organizations within their FTA region or cost center. Global FTA users can see all organization users within their system (e.g., TrAMS, NTD, DGS).
- 5) FTA users with specific roles (e.g., GSM, validation analyst, LSM) can view external user records.
- 6) External users can only see user records for other external users of the same subtype. For example, TrAMS DOL users will only see other DOL users in TrAMS.

The following table summarizes these rules from the perspective of the logged-in users type:

My User Type	User Records I Can View		
	Organization	FTA	External
Organization	All organization users within my own organization(s).	No FTA user records.	No external user records.
FTA	All users belonging to organizations within their FTA cost centers. A global user sees all organization users within his/her system (e.g., TrAMS).	All FTA users within the user’s system (e.g., NTD, DGS).	See some external user records depending on roles assigned.

External	No organization user records.	No FTA user records.	All users of same external subtype (e.g., Auditor) in my approved systems (e.g., TrAMS, NTD, DGS).
----------	-------------------------------	----------------------	--

Table 2 – User Record Viewing Privileges

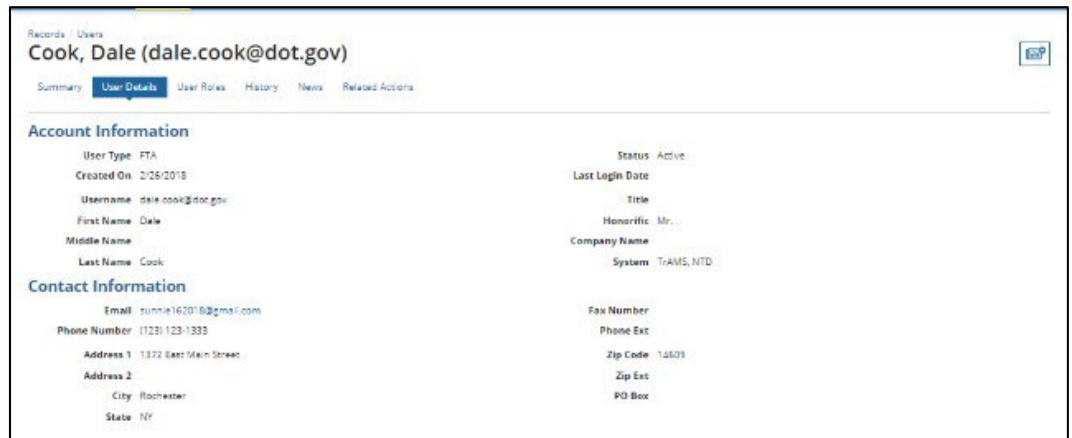

4.2.2 User Record Content

Each user's record opens to a user *Summary* page.

User record content is split between multiple pages. Each user's record contains:

- 1) A *User Details* page visible to all users who have access to that user's record. The *User Details* page contains the user's account and contact information (e.g., first and last name, email, user type, and account status).

- 2) A **User Roles** page visible to all users who have access to that user's record. The **User Roles** page contains a grid of the user's active **Roles** and current **User Managers**.

- 5) The **Related Action** page contains any actions the viewing user is allowed to perform on the record. On this page, the user can manage their **Profile**, **Security Questions**, and **PIN**.

For detailed information about these user record pages, please reference [Section 6.4](#).

5. Managing the User's Own Record

5.1. Related Actions

By selecting **Related Actions** users will be provided with additional options that can be performed on their **Summary** page.

5.1.1 Related Action: Edit Profile

All non-FTA users can edit their own user profile (name, contact information, and business address) using a profile related action. The only profile information users cannot self-update is their username and email address. FTA users cannot edit their profile information because their information is provided to FACES by a nightly information transfer from FTA's internal systems. If an FTA user's information is incorrect, the information must be updated in FTA's internal systems.

To edit the user's profile:

- 1) Locate the **User Profile** through either the **User Settings** page or the **Records** page.
- 2) Select **Related Actions**.
- 3) Click **Edit Profile**.

- 4) The **Edit User Profile** page will display all previously saved user-associated details in editable fields.

 This screenshot displays the 'Edit User Profile' page. It contains several sections: 'Basic Information' with fields for Username, First Name, Middle Name, Last Name, Title, Honorable, Company Name, and Department; and 'Contact Information' with fields for Email, Phone Number, Address 1, Address 2, City, State, Zip Code, Zip Ext, PO Box, Fax Number, and Phone Ext. The 'Cancel' button at the bottom left is highlighted with a red box.

- 5) Click **Cancel** to return to the **Related Actions** page without saving any changes.

 This screenshot shows the 'Edit User Profile' page with the 'Cancel' button at the bottom left highlighted by a red box. The page contains various input fields for user details, including name, contact information, and address.

- 6) Update any of the data fields as needed and then click **Save** to save all details. Required fields are marked with an asterisk * on the form. If required fields were missing from the previous FACES version, you will be required to add this information to save any other updates.

- 7) Selecting **Save** will execute a validation script to ensure that all data entered matches pre-determined rules (e.g., the PO Box field cannot contain any letters). Once the data is validated, the information is saved and the **Related Actions** page displays. The system will briefly display (within the header area of the Related Actions page) a message that the *Action Completed Successfully*, indicating that all of changes were accepted.

5.1.2 Related Action: Set Security Questions/Answers

New user accounts are automatically assigned a **Task** to set up an initial set of **Security Questions and Answers (Q&As)** to ensure the security of the account and to provide a mechanism to re-establish access when lost due to a lockout, etc. To begin that process, the user must be assigned a **Task** to **Set Security Q&As**.

A few rules apply to the setting of **Security Q&As**:

- All users can set up and manage three (3) security questions through the **Manage Security Questions** page.
- Questions must be selected from an FTA approved list and 3 distinct questions must be selected.
- Answers must contain at least three (3) characters and cannot be used for more than one question.
- Users must correctly answer their existing questions to change them.

- e) Users have three (3) attempts within a calendar day to answer their security questions correctly before they are locked out of the action.
- f) Users cannot see the **Manage Security Questions** page on any other user's account.
- g) Users will receive an automated email notification any time their questions have been updated.

To being the process of setting one's own security questions:

1. Locate the **User Profile** through either the **User Settings** page or the **Manage Users** page.
2. Select *Related Actions*.
3. Click *Manage Security Questions*.
4. The **Manage Security Questions** page displays, providing three areas for the user to select from a dropdown of questions and to enter their own answers to those questions.

Manage Security Questions

6. When all three questions have been selected and answers provided, click ***Submit***.

7. The **Tasks** tab will display with the just completed ***Set Security Q&As*** task being cleared from the page.

5.1.3 Related Action: Manage Security Questions/Answers

FACES provides a set of questions to add security to some of its functions. Three security questions, as set by the users themselves, are required to complete specialized actions.

To begin the process of managing one's security questions:

- 1) Locate the **User Profile** through either the **User Settings** page or the **Records** page.
- 2) Select ***Related Actions***.
- 3) Click ***Manage Security Questions*** from the **Related Actions** page.

- 4) If there are existing security questions associated with the user profile, the **Answer Existing Security Questions** page displays. This page presents three questions and gives the user three attempts (within a 24-hour period) to answer them correctly.

Answer Existing Security Questions

You already have security questions set up. If you would like to change your questions or answers, you must first correctly answer your existing questions. You have 3 attempts within a 24 hour window to verify your identity. If you have forgotten the answers to your security questions, please contact the Help Desk.

Question 1

14) The **Related Actions** page is again displayed.

5.1.4 Related Action: Reset Security Questions

If a user is unable to answer security questions to re-establish access due to a lockout, etc., security questions can be reset by a System Administrator or through contacting the TrAMS Help Desk.

5.1.5 Related Action: Creating a PIN

Some user roles require a personal identification number (PIN) to complete actions or tasks within the system. These roles include the TrAMS Submitter, Attorney, Official, and Regional Administrator. Users that have one or more of the PIN-based roles gain access to a new user profile **Related Action** to set their personal four-digit PIN code. This **Related Action** will be shown as **Manage PIN**. Adding any of the PIN-based roles to a user record will require that user to make use of a PIN code for certain actions that can only be performed by those roles.

There are a few basic rules surrounding the use of PINs:

- a) Users with PIN roles (**TrAMS Submitter, Official, Attorney, Administrator**) will have access to a **Manage PIN** profile **Related Action** to create or change a PIN.
- b) No user can see the **Manage PIN** profile **Related Action** on any other user's account.
- c) PINs must be 4-digit numeric codes (e.g., "1234").
- d) To reset a PIN, a user must correctly enter their current PIN or correctly answer their Security Questions.
- e) Users have 3 attempts per calendar day to reset their PIN before they are locked out of the action.

- f) Users will receive an automated email notification any time their PIN has been updated.

To create the **PIN** code:

- 1) Locate the **User Profile** through either the **User Settings** page or the **Records** page.
- 2) Select **Related Actions**.
- 3) Click **Manage PIN**.

- 4) First time users will see the **New PIN** field. Enter a four-digit PIN code. **This is a required field.**

- 5) Select **SUBMIT** so save the PIN.
- 6) Select **Cancel** to return to the **Related Actions** page without saving any changes.

5.1.6 Related Action: Changing the PIN

Once the PIN has been created, a user may again select the **Manage PIN** function from the **Related Action** page to change or re-set their personal four-digit PIN code.

To change the PIN code:

- 1) Locate the **User Profile** through either the **User Settings** page or the **Manage Users** page. Select **Related Actions** and then click **Manage PIN**.

- 2) The **Manage PIN** page will display **User Information** as well as the roles to which the PIN has been applied.

- 3) The user is provided with two separate mechanisms by which they can verify their identity. One includes simply entering the PIN (if known). The other allows the user to verify their identity by answering their security questions.

5.1.7 A Locked Account

FTA complies with U.S. DOT Information Technology (IT) Security guidelines. FACES uses several security features to ensure that only valid and active users have access to the FTA platform. One of those features is the User Lockout function. An automatic account lockout occurs after 60 days of user inactivity (i.e., after 60 days of the user failing to log in to the FTA platform). The lockout also occurs when the user is required to comply with an annual user recertification. Annual user recertification verifies that each user has valid system access and the correct user roles. A user will be locked if the user is not recertified during the recertification window. These security features apply to all software systems that rely on FACES for access.

Users with locked accounts can still log onto the FTA platform but they will be unable to complete any actions on their account or specific to their roles. The standard tabs (***Manage Users***, ***Reports***, and ***Actions***) will contain a limited amount of data and security-related actions. For example, no tasks will be available.

Locked users can unlock their accounts using one of two methods: (1) correctly answering their existing security questions; or (2) submitting an unlock request. Both methods are available via a single action on the **Actions** tab. It is preferred that all users attempt to self-unlock their accounts by answering their previously setup security questions before submitting an unlock request; this is the quickest and most efficient route to unlock an account. However, if a user is locked due to recertification, the user will not be able to use self-unlock to unlock his or her account. Once an account is unlocked, the user's access privileges will be fully restored.

5.1.8 Answer Security Questions

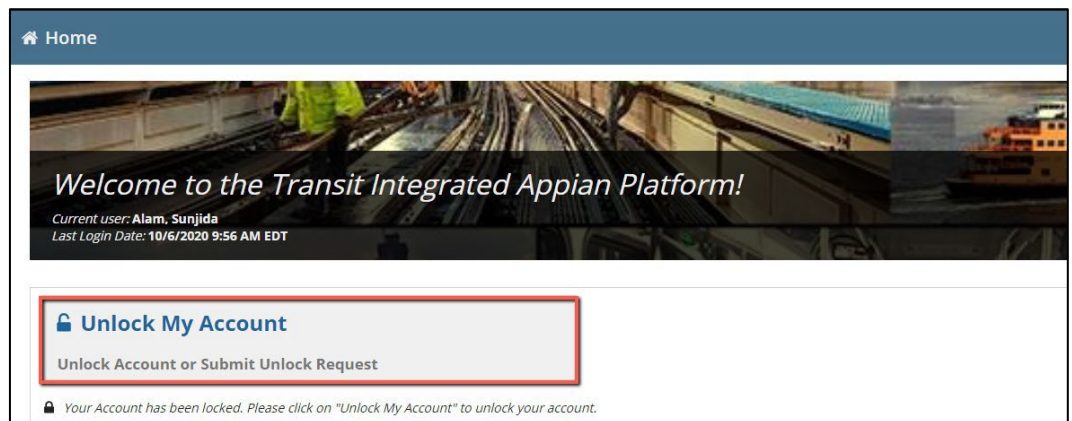

If the account is locked and security questions were previously set up, the user can attempt to unlock the account by answering their security questions through the **Unlock Account** link on the **Actions** tab.

Note:	See Related Action: Set Security Questions/Answers or Related Action: Manage Security Questions/Answers for instructions on setting up Security Questions. User Security Questions cannot be modified while the account is locked.
--------------	--

The user is allowed three (3) attempts per calendar day to correctly answer the security questions. Users who have not set up security questions or who cannot remember the correct answers to their questions must instead submit an unlock request.

To unlock the account via security questions:

- 1) Login to your account.
- 2) Click **Unlock my Account**.

- 3) If **Security Questions** have already been established, then click **Answer Security Questions** from the **Unlock Account** page and then click **Submit**.

- 4) Provide the correct answers to the three previously established questions and click **Submit**.

Note:	Answers are case insensitive.

- 12) An email will be auto generated and sent to the user.

5.1.9 Submit Unlock Request

If a user has not set up security questions or cannot remember their answers, they can submit an unlock request by selecting **Unlock Account** on the **Actions** tab. The unlock request is automatically routed to the appropriate approvers (User Managers, Validation Analysts, LSMs, or GSMs). If an organization does not have a User Manager or the locked user is the User Manager, the request will go to the next level approver. If the user belongs to multiple organizations, the request will go to each of the organization's user management chain.

To submit an unlock request:

- 1) Log into FACES and Click **Unlock My Account**.

- 2) Select the ***Send a Request to Unlock Your Account*** option, enter any comments pertinent to regaining access, and then click ***Submit*** to finalize the action.

- 3) A message indicating **Unlock Request Successfully Submitted** will display.
- 4) Click ***Close***.

- 5) The request for the unlock will automatically be routed to the appropriate approver(s).

Users are only allowed to submit one unlock request at a time. Once an unlock request has been submitted, the user cannot self-unlock their account via security questions or submit a new unlock request. After submitting the unlock request, the **User Manager, LSM, Validation Analyst, User Manager Supervisor, FTA Signer, or GSM** (as appropriate) will receive an email notification to review the submitted request. They can either approve or deny the request. The user will be notified via email of either decision.

If the request is approved, the account will unlock, and all previous permissions will be restored. If the request is denied, the account will remain

locked. The user will see the message below if they attempt to submit another unlock request. If the account remains locked after 48 hours since the request was submitted, the user should contact any of their assigned **User Manager, Validation Analyst, LSM, or GSM** by clicking on the link.

Action Cannot Be Completed

You cannot access this action at this time. You have already submitted an unlock request and have reached the maximum number of attempts to unlock your account using your security questions. If more than 48 hours has passed since your request was submitted, please reach out to one of your managers displayed below.

Click to Show Managers

6. User Management

6.1. User Management Responsibilities

User management responsibilities include user creation, role assignments, deactivation, reactivation, and unlocking. Responsibilities vary somewhat by management level. At the lowest level, each organization will have one or more users assigned to the **User Manager** role. FTA approval is required to obtain or assign the **User Manager** role to any individual. The **User Manager** for an organization can perform the following actions for users within their organization:

- Create and Manage Users.
- Edit user profile information.
- Manage role documentation.
- Deactivate and Reactivate users.
- Unlock users.

- Recertify users.

FTA Global Security Managers (**GSMs**) can create and manage all other users within their system (e.g., TrAMS, NTD, SSOR, DGS and CRM).

FTA Local Security Managers (**LSMs**) can manage all FTA users within their cost center, organization users within any organization that belongs to their cost center, and external contractors. FTA LSMs can also approve role requests from User Managers.

FTA **Validation Analyst** can only manage with **FTA LSM** roles users within their cost center, organization users within any organization that belongs to their cost center, and external contractors. Validation Analyst with LSM role can also approve role request from User Managers.

User Managers (**UMs**) can create, manage, and recertify users within their system.

Privileges	User Manager	Validation Analyst with LSM	LSM	GSM
Users authorized to manage	Users in same organization	Organization, FTA, and contractor users in same Cost Center	Organization, FTA, and contractor users in same Cost	All users in Platform System
Responsibility	User Manager	Validation Analyst	LSM	GSM
Create New Users	Yes	Yes	Yes	Yes
Assign and remove Bulk	No	Yes	Yes	Yes
Approve role requests*	No	Yes	Yes	Yes
Edit user profile	Yes	Yes	Yes	Yes
Manage role	Yes	Yes	Yes	Yes
Deactivate and Reactivate users	Yes	Yes	Yes	Yes
Unlock users	Yes	Yes	Yes	Yes
Recertify users	Yes	Yes	Yes	Yes

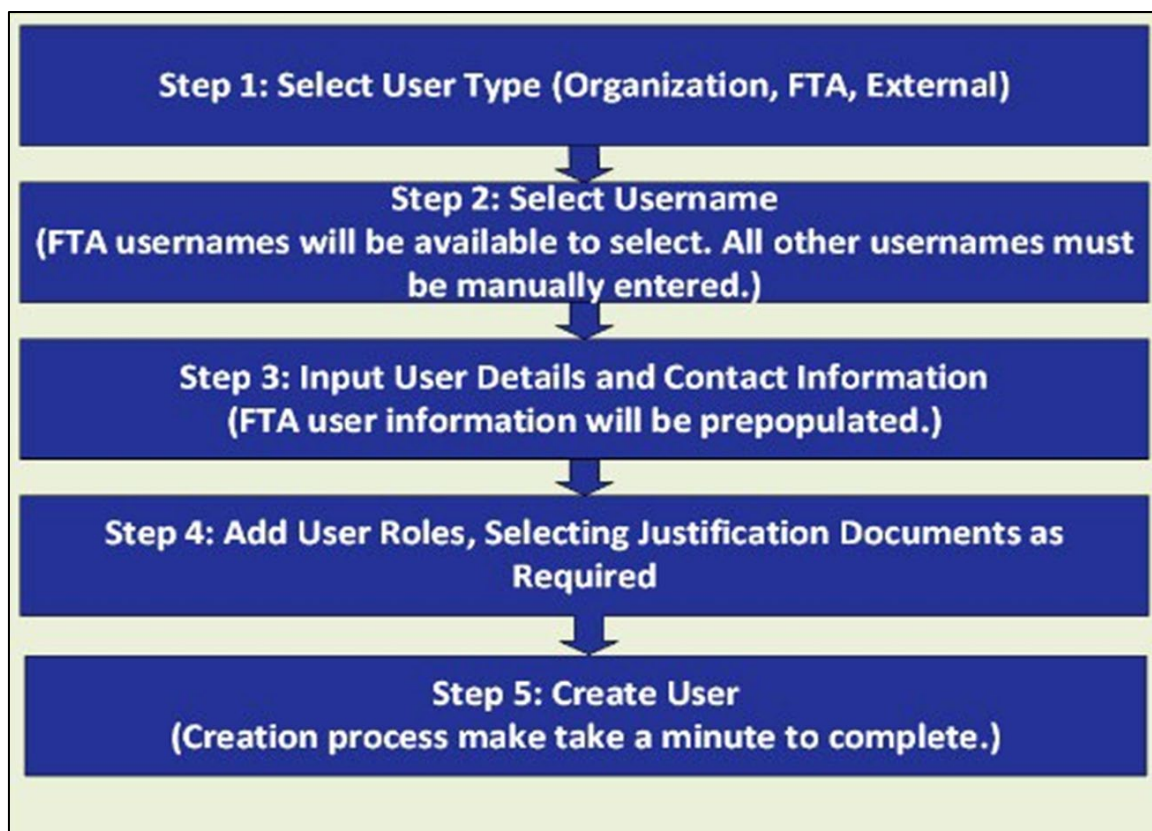

*User managers can assign roles, however certain roles (UM, Attorney, Submitter, Official) require approval from an LSM

The remainder of this section presents an overview of each of the user management activities and responsibilities.

Note:	<i>The organization employs the principle of least privilege, allowing only authorized accesses for users (or processes acting on behalf of users) which are necessary to accomplish assigned tasks in accordance with organizational missions and business functions.</i>
--------------	--

6.2. User Creation

The following presents an overview of the six-step process required for creating a new user of any type:

There are explicit rules controlling user creation:

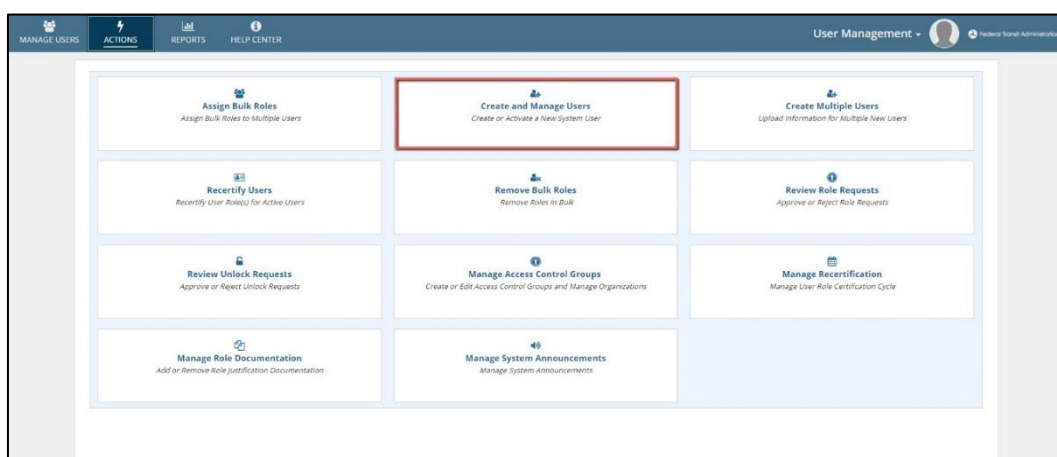

- 1) Only users with the roles **User Manager**, **Local Security Manager (LSM)**, and **Global Security Manager (GSM)** are approved to create users using the *Create and Manage Users* action.
- 2) Users can only create user and add roles for which they have privileges.
- 3) Organizational **User Managers** can create other organizational users.
- 4) External **User Managers** can create other external users (e.g., DOL).
- 5) **LSMs and GSMs** can create users of any type.
- 6) When a username is entered to create a new user, the system will flag any user that already exists and present the creator with the option of going to the *Manage Roles* action to add roles to that existing user.
- 7) A user's username must be a valid email address.
- 8) Name, contact, and business address information is required when creating a new user.
- 9) A user cannot be created unless at least one role is assigned to the user.
- 10) Some roles require approval by users with higher privileges.
- 11) Only roles matching the new user's type can be added to the user.

6.2.1 Action: Create and Manage Users

User Managers, Supervisors, Validation Analyst, LSM, and GSMs have access to the **Create and Manage Users** action. This action allows a new user of any type (Organization, FTA, and External) to be added to the system, however, individual ability to create users of different types is restricted. The process for creating organization and external users is slightly different from the process to create FTA users. The two main processes will be described in separate subsections so that appropriate screenshots can be shown.

To add a new user:

- 1) Log in to the system as a user manager and click **Create and Manage Users** from the **Actions** tab.

- 2) The user manager is presented with a short list of user types from which to select. Each type has its own set of role limitations. Depending on the user manager's privileges, the user type may be preselected and locked. DOT Users as shown in the following screenshot.
- 3) Select the appropriate user type (as applicable) and then click **Next**.

 A screenshot of the 'Create and Manage Users' form. The title 'Create and Manage Users' is at the top. Below it, the 'User Type *' section contains three radio button options: 'FTA Staff', 'Organization User (e.g. Recipient, Reporter)', and 'External User (e.g. DOL, DOT Reviewer, Auditor, Contractors)'. At the bottom of the form, there are 'CANCEL' and 'NEXT' buttons.

- 4) The first information about a user required is their username, based on a valid email address. **This is a required field** and will function as the user's login. Email addresses should be provided in lowercase. Each Username field must be unique and cannot be changed after creation.

Validation checks will confirm uniqueness before moving to the next step.

The username must be an email address.

BACK CANCEL NEXT

- 9) Click *Next*, launching the *Create User* page. The Username and Email fields will be pre-populated.

Create and Manage Users	
Basic Information	
Username * userx@mailinator.com	Title *
First Name *	Honorific * Honorific
Middle Name	Company Name
Last Name *	Department
Contact Information	
Email * userx@mailinator.com	Fax Number
Phone Number * (555) 555-5555	Phone Ext
Address 1 *	Zip Code *
Address 2	Zip Ext

10) Enter the Basic Information for the following fields:

- The username just entered displays in the *Username* field but cannot be changed.
- Enter the user's first name in the *First Name* field (35-character limit). This is a required field.
- Enter the user's middle name in the *Middle Name* field (35-character limit).
- Enter the user's last name in the *Last Name* field (35-character limit). This is a required field.
- Enter the user's job title in the *Title* field. This is a required field.
- Enter an honorific for the user in the *Honorific* field. This is a required field (i.e., Mr., Ms.).
- Enter the user's company information in the *Company Name* field.
- Enter the user's department in the *Department* field.
- System information is entered only by the Global Security Manager.

11) The **Create User** page also provides data fields for Contact Information:

- The valid email address displays once more in the *Email* field. Again, the email address cannot be altered or edited once the email has been accepted.
- Enter the user's work business phone number in the *Work Phone* field. This is a required field (20-character limit).

- c. Enter the user's business phone number extension in the *Phone Number Extension* field (10- character limit).
- d. Enter the user's business fax number in the *Fax Number* field (20-character limit).
- e. Enter the first line of the user's business address in the *Address 1* field (60-character limit).
- f. Enter the second line of the user's business address in the *Address 2* field (60-character limit).
- g. Enter the city for the user's business address in the *City* field (60-character limit; no numeric).
- h. Select the state for the user's business address from the dropdown menu provided under the *State* field.
- i. Enter the ZIP Code for the user's business address in the *ZIP Code* field (5-character limit).
- j. Enter the ZIP Code Extension for the user's business address in the *ZIP Code Extension* field (4- character limit).
- k. If necessary, enter the associated Post Office Box in the *PO Box* field (35-character limit).

Note:	<i>PO Box is limited to numeric values and cannot contain alphabetical characters.</i>
--------------	--

12) After all required details have been entered, click ***Next***.

The screenshot shows a web form for entering user address information. The form is organized into two columns. The left column contains fields for 'Address 1', 'Address 2', 'City*' (with 'Transitville' entered), and 'State*' (a dropdown menu currently showing 'DC'). The right column contains fields for 'ZIP EXT' and 'PO Box'. At the bottom of the form, there are three buttons: 'BACK', 'CANCEL', and 'NEXT'. The 'NEXT' button is highlighted with a red border and background.

13) The **Manage Roles** page displays. Click ***Add New Role***.

21) The user will receive an automatic email alerting them of the account setup, like the one below.

From: FACES System Administrator
Subject: New Account Created on FTA Platform

Dear Joe Doe,
A new user account has been created for you on the Federal Transit Administration's (FTA's) FACES Platform. This account provides you access to the State Safety Oversight Reporting (SSOR).

You should have received an email from Appian, the underlying software system, with your username and your temporary password.

The following roles have been requested for your account:

Application	Role	Access Control Group	Cost Center/Organization	Status
SSOR	Primary Reporter	SSOR Local Security Managers (LSMs)	Arizona Department of Transportation (ADOT)	Approved

If you have roles that are in a requested status, you will receive an email notification when the role has been reviewed by the approver.

To log in to your account, go to <https://facesdev5.fta.dot.gov/suite/> if you are an FTA employee access this site from an FTA network, read and agree to the system user notification. Then click the 'If you are an FTA User, click this link to login' link. If you are unable to log in, contact your FTA supervisor. If you are a non FTA employee, read and agree to the system user notification. Then click the 'If you are an External User, click this link to log in' link. If you are unable to log in contact your organization User Manager or FTA Regional Office. All user's can also contact your application's help desk:
SSOR Help Desk at FA.SSOR.HELP@dot.gov

Federal Transit Administration

6.2.2 Action: Assign Bulk Roles

If more than one user or external user needs to be assigned to a new user role, the **User Manager**, **LSM**, or **GSM** may bulk assign user roles through this action. The assignment process will provide validations and will only allow users to be assigned roles that are valid for them. This action is useful when

paired with the **Create Multiple Users** form or any other time where many users must be assigned to new roles.

To assign bulk roles at once:

- 1) Click the **Assign Bulk Roles** from the **Actions** tab.

- 2) The Assign Bulk Roles page displays a yellow banner that requires the user to click the **PROCEED** button.

 A screenshot of the 'Assign Bulk Roles' page. At the top, there is a yellow banner with the text: 'This action will affect System performance when submitted during business hours. Click proceed to continue.' A red box highlights the 'PROCEED' button in the top right corner of the banner. Below the banner, there are two dropdown menus: '* System' (set to 'TRAMS') and '* Role Category' (set to 'Select a Role Category'). There is a 'RESET' button next to the 'Role Category' dropdown. Below these, there is a section with instructions: 'Instructions: Users can be added by clicking on Add User below. Multiple users may be added as a group by typing the user name one after the other. To create another group, click on Add User again. When all users have been added to the grid, you may select a single role or multiple roles for each group of users. A maximum of 300 roles can be assigned.' Below the instructions is a table with columns: '#', 'User', 'Role', 'Access Control Group', 'Organization', 'Cost Center', 'Justification Document', 'Comments', and two information icons. The table is currently empty, with the text 'No items available' centered below it. At the bottom left, there is a '+ ADD USER' button. At the bottom right, there are 'CANCEL' and 'NEXT' buttons.

- 3) The **Assign Bulk Roles** page displays the available users to assign new roles based on the user assigning the roles, and the users to be assigned to a role.

- 4) The Assign Bulk Roles displays a short list of user roles from the Role Category. Select the relevant user role category to which the users will be assigned from.

- 5) Once the role category is selected, the user manager can add users clicking on the link “Add user”. Multiple users may be added as a group by typing the username one after other. When all users have been added to the grid, you may select a single role or multiple roles for each group of users. To create another set of users, click on Add User again.

- 6) The logged in user is given an option to copy the same set of role combination in a new row and can add more roles or organizations in

addition to the copied set. After that he can select the users in user column like step 4.

Assign Bulk Roles

* System: TRAMS * Role Category: Recipient RESET

Instructions: Users can be added by clicking on Add User below. Multiple users may be added as a group by typing the user name one after the other. To create another group, click on Add User again. When all users have been added to the grid, you may select a single role or multiple roles for each group of users. A maximum of 300 roles can be assigned.

Enter a justification statement for the role assignment in the comments field. This should be a brief statement that explains why this user needs the role, along with any other relevant information.

Document Name * 0/255

- 12) Click the **Upload** button in that section, select the justification document that you wish to upload in the Windows file browser and click open.

- 13) After selecting the justification document to upload, the user manager may delete that document upload and select again by hovering over the document icon and pressing the below displayed icon.

- 14) After the upload is finished, the user manager will have to give a title and brief description of the justification document before clicking the **Upload Document** button to finish the bulk role assignment.

- 15) After clicking the **Upload Document** button, the request will be processed, and the user manager will be returned to the **Actions** page.

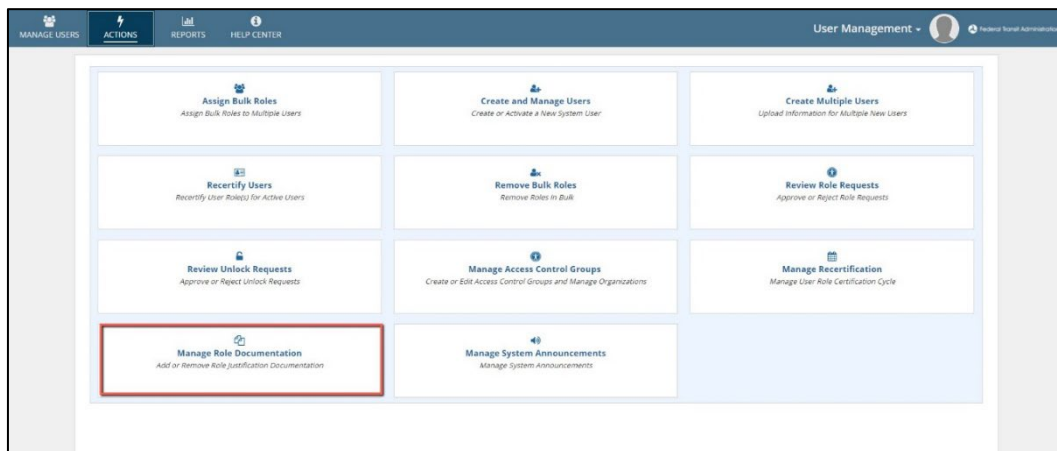

6.2.3 Action: Manage Role Documentation

Roles can have an optional justification document for their assignment to a specific user. FACES has incorporated a Justification Document template that can be downloaded and completed. The Justification documentation can be

uploaded in advance of role assignment via the **Manage Role Documentation** action or uploaded at the time the role is added on the **Manage Roles** form as shown in section 6.2.1. At the time of upload, documentation is tagged to the user's organization. During role assignment, the document is then tagged to the specific role and the specific user. A single document can be used for any combination of roles and users (presuming these roles and user are mentioned within the document).

To upload role documentation in advance of role assignment:

- 1) Select **Manage Role Documentation** from the **Actions** tab.

- 2) The **Manage Role Documentation** page displays available role documents. User Managers can view, add, or delete documents for their organization(s). Validation Analyst and LSMs can view, add, or delete documents for their Cost Center(s) and any organization(s) within their Cost Center(s).

- 6) The **Add Document** section will display beneath the list of available documents. Users can download and use the Justification Document

template link available. Please follow the instructions within the document on how to complete the Justification Document.

The screenshot shows the 'Add Document' form in a web application. At the top, there is a table with two rows of data. Below the table, the form has several sections: 'System *' with a dropdown menu, 'Access Control Group' with a dropdown menu, and 'Organization' with a text input field. The 'Document *' section includes an 'UPLOAD' button and a 'Drop file here' area. The 'Description *' section has a large text area. The 'Document Name *' section has a text input field with a character count '0/255'. At the bottom right, there is an 'UPLOAD DOCUMENT' button. A red arrow points to the 'Download the template' link in the 'Add Document' header.

- 7) Click **Upload** to browse for justification documents to add to the document repository.

This screenshot is identical to the one above, but with a red rectangular box highlighting the 'UPLOAD' button in the 'Document *' section.

- 8) Using the Windows browse function, find and click the document to upload. Then click **Open**.

- 9) The selected document will be uploaded.
- 10) To select a different document, hover over the document file name and click the “X” that displays. You can then click **Upload** to choose a new document.

- 11) If the user is a User Manager for a single organization, the **System**, **Access Control Group**, and **Organization** fields will be assigned by default to the user’s organization. Validation Analyst, LSMs and GSMs may need to populate some of these fields.

 A screenshot of the 'Add Document' form. The form has a title bar 'Add Document (Download the template)'. Below it, there are three dropdown menus: 'System *' (set to 'SSOR'), 'Access Control Group' (set to 'SSOR Local Security Managers (LSMs)'), and 'Organization' (set to 'Select an Organization'). These three fields are enclosed in a red rectangular box. Below these fields, there is a 'Document' section with a file icon and the text 'FACES Justification Document v1.0 PDF - 213.03 KB'. There is also a 'Document Name *' field with a character count '0/255'. At the bottom right, there is a blue 'UPLOAD DOCUMENT' button.

- 12) This page requires descriptive information to be entered to make the document accessible to other users and to explain the document contents.
 - a. Document Name: A clear document name is essential for other users to know what the document’s purpose and coverage. Document names cannot exceed 255 characters.

- b. A description that provides even more details about the document's intent, content, etc., is also advisable. Descriptions cannot exceed 4000 characters.

Once the information for the document is finalized, click **Upload Document**.

- 13) The document is added to the list of available documents with its Document Name, Description, Access Control Group, Cost Center, Organization, Upload Date, and the UserID of the person who uploaded it.

6.2.4 Action: Manage Role Documentation

If more than one organization or external user needs to be created, the **User Manager, Validation Analyst, LSM, or GSM** may bulk load their profile

information into the system using a Microsoft Excel file. A file template is provided by the system and must be used. FTA users cannot be uploaded through this action. The upload process will perform data validations and will only upload users that pass all validations. This action is useful when new organizations are added to your system and many users need to be imported at once. At this time, user roles must be added separately using the standard **Manage Roles** form.

To upload multiple user information at once:

- 1) Click the **Create Multiple Users** from the **Actions** tab.

- 2) Download the user information template by clicking the hyperlink that says **Template**.

 A screenshot of the 'Create Multiple Users' form. The title 'Create Multiple Users' is at the top. Below it, a paragraph explains that new user information can be uploaded for multiple users at a time. The 'Download Template' section contains a link labeled 'Template', which is highlighted with a red rectangular border. Below this link, instructions state: 'Click the link to download the template. Add data for each new user. For "User Type", enter "Organization" for TrAMS Recipient or NTD Reporter users. The template must be saved with an ".xlsx" extension.' There is a '(+) show instructions' link. The 'Upload User Data' section features an 'UPLOAD' button with a file icon and a text box for uploading a completed ".xlsx" file. At the bottom, there are 'CANCEL' and 'SUBMIT' buttons.

- 3) The template will contain the following fields for user data. Almost all fields are required. In the template for each user provide the following details for each new user:

Field	Required	Data Entry Rules
User Type	Yes	Must be Organization, DOL, Auditor, or Contractor.

Email (username)	Yes	Entry must be a valid email entered in all lowercase characters. This
First Name	Yes	Cannot contain any special characters (e.g. \$) or numbers.
Last Name	Yes	Cannot contain any special characters (e.g. \$) or numbers.
Title	Yes	Must not exceed 255 characters.
Honorific	Yes	Must be Mr., Mrs., Ms., or Dr. (<i>periods required</i>).
Office Phone Number	Yes	Must be formatted like a phone number (e.g., (555) 555-5555). Cannot be just a 10-digit number (e.g. 5555555555).
Address 1	Yes	Must begin with a street number (e.g., “1207 Maple St”) or a PO (e.g., “PO Box 412”).
Address 2	No	
City	Yes	Cannot contain special characters (e.g. \$) or numbers.
State or Territory	Yes	Must be a verified 2-character US state or US territory abbreviation.
Zip Code (5 digits)	Yes	Must be a 5-digit number. If the leading zeros are being stripped from '.xlsx' document, begin the zip code with an apostrophe (e.g. '01234).
Company	No	Must not exceed 255 characters.
Department	No	Must not exceed 255 characters.

- 4) The file must be saved with an “.xlsx” file extension. (A sample file with four users is shown below.)

	A	B	C	D	E	F	G	H	I	J	K
	User Type	Email (username)	First Name	Last Name	Title	Honorific	Office Phone Number	Address 1	Address 2	City	State or Territory
2	Organization	smith1@fake.com	John	Smith	Analyst	Mr.	(123)123-1234	101 Ninth St.		Transitville	IL
3	Organization	smith2@fake.com	Jessica	Smith	Analyst	Dr.	(123)123-1234	101 Ninth St.		Transitville	IL
4	Organization	smith3@fake.com	Jerry	Smith	Analyst	Mr.		101 Ninth St.		Transitville	IL
5	Organization	smith4@fake.com	Josie	Smith	Analyst	Mrs.	(123)123-1234	101 Ninth St.			IL

- 5) When the file is ready to be uploaded, click **Upload** on the **Create Multiple Users** page to locate the Excel (.xlsx) file.

Create Multiple Users

New user information (names, addresses, phone numbers) can be uploaded for multiple users at a time. Once user information is uploaded, new users must be activated using the "Create New User" action on the Actions tab. User roles will be added at that time.

Download Template
 Template
 Click the link to download the template. Add data for each new user. For "User Type", enter "Organization" for TrAMS Recipient or NTD Reporter users. The template must be saved with an ".xlsx" extension.

Upload your completed ".xlsx" file here.

- 9) The **Confirm Users** page will open. The system will display the users in the file that can be uploaded (**New Users**) and the users that have data issues (**Users with Errors**). For each user with issues, specific error messages will be given to help correct the user data.

Confirm Users

New Users
The information for the following users passed all validation checks. Click the "Submit" button to create these users.

Username	First Name	Last Name
jsmith1@fake.com	John	Smith
jsmith2@fake.com	Jessica	Smith

Users with Errors
The information for the following users contain one or more errors. These users cannot be created at this time. Click the "Back" button to upload a corrected file. Click "Cancel" to exit the form and try again later.

Username	Errors
jsmith3@fake.com	Office Phone; Input is Required
jsmith4@fake.com	City; Input is required

- 10) The user may:

- a. Select **Cancel** to return to the **Actions** page. Click **Yes**.

You are about to exit this form. No users will be saved. Are you sure you want to continue?

- b. Select **Back** to return to return to the previous page and select a new file. Click **Yes**.

Changes will be lost, are you sure you want to go back?

NO YES

- c. Click **Submit** to confirm the users and complete the upload of all users that passed validation checks. Only users that passed validation will have user records created.

jsmith3@fake.com	Office Phone: Input is Required
jsmith4@fake.com	City: Input is required

CANCEL BACK SUBMIT

- 11) The **Creating Users** form will display. Click **Refresh** to see how many users have been created. The process may take several minutes.

Creating Users

0 out of 2 users have been created. Please click refresh to see if the process is complete. This may take a few minutes.

REFRESH

- 12) Once the users have been added to the system, clicking **Refresh** will display the **Users Created** screen. Click **Close** to return to the Actions tab.

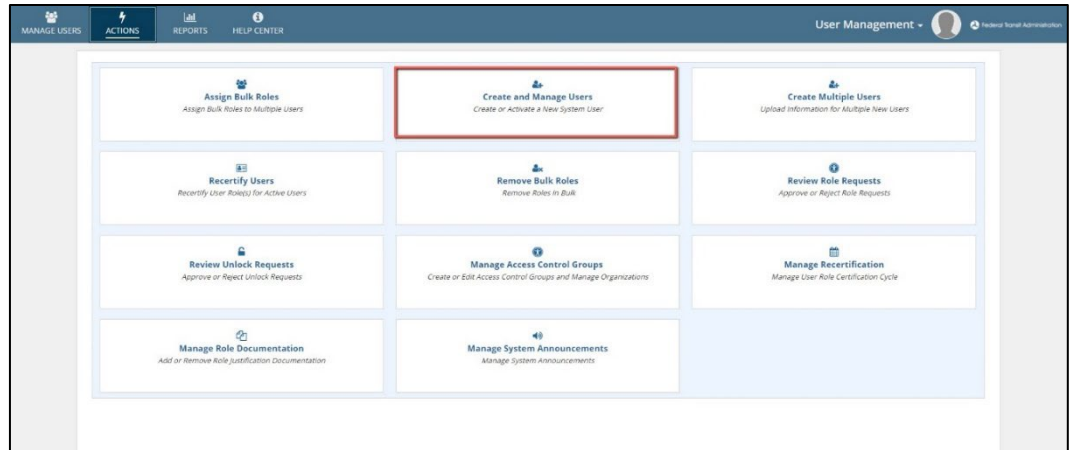

Users Created

The following users have been created. These users will be unable to log in until activated via the "Create New User" action on the Actions tab.

New Users		
Username	First Name	Last Name
jsmith1@fake.com	John	Smith
jsmith2@fake.com	Jessica	Smith

CLOSE

- 13) To finalize user setup, the **User Manager** will need to locate each user to add user roles. Users will be unable to login until roles are added. The same individual that uploaded the user data does not need to be the person to activate the accounts. If multiple user managers exist for an organization, this responsibility can be shared.
- 14) To locate a new user to finalize, go to the **Create and Manage Users** action.

- 15) Select the appropriate user type, enter the user's username, and click **Next**.

 A screenshot of the 'Create and Manage Users' form. Under the 'User Type' section, there are three radio button options: 'FTA Staff', 'Organization User (e.g., Recipient, Reporter)', and 'External User (e.g., DOI, DDT Reviewer, Auditor, Contractors)'. The 'Organization User' option is selected. At the bottom of the form are 'CANCEL' and 'NEXT' buttons.

 A screenshot of the 'Create and Manage Users' form. The 'Username' field is highlighted with a red border and contains the text 'janedoe@fakeemail.com'. Below the field, a message states: 'The username must be an email address.' At the bottom are 'BACK', 'CANCEL', and 'NEXT' buttons.

- 16) A page will display a message that the user needs to be activated. You will be given the option to navigate to **Manage Roles** for that user. Click **Yes** to proceed to **Manage Roles**.

 A screenshot of the 'Create and Manage Users' form. It displays a summary of 'User Information': Full Name: Ms. Jane Doe, Title: Analyst, User Type: Organization, Username: janedoe@fakeemail.com, and Status: Deactivated. Below this, a message asks: 'The user needs to be activated. Would you like to manage this user's roles?'. At the bottom are 'NO', 'CANCEL', and 'YES' buttons.

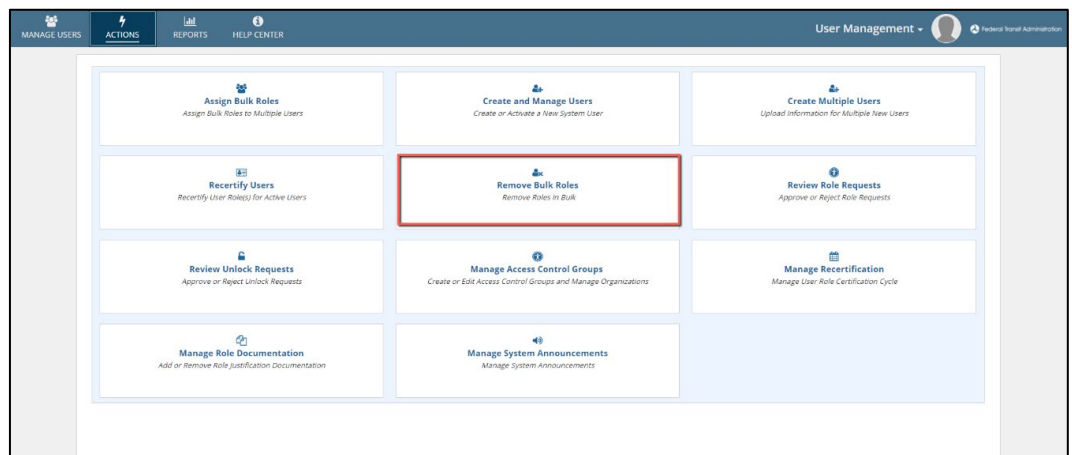

- 17) Follow the standard process for adding roles to the user and then click **Activate**. The user will be notified that their account has been established at this point.

6.2.5 Action: Remove Bulk Roles

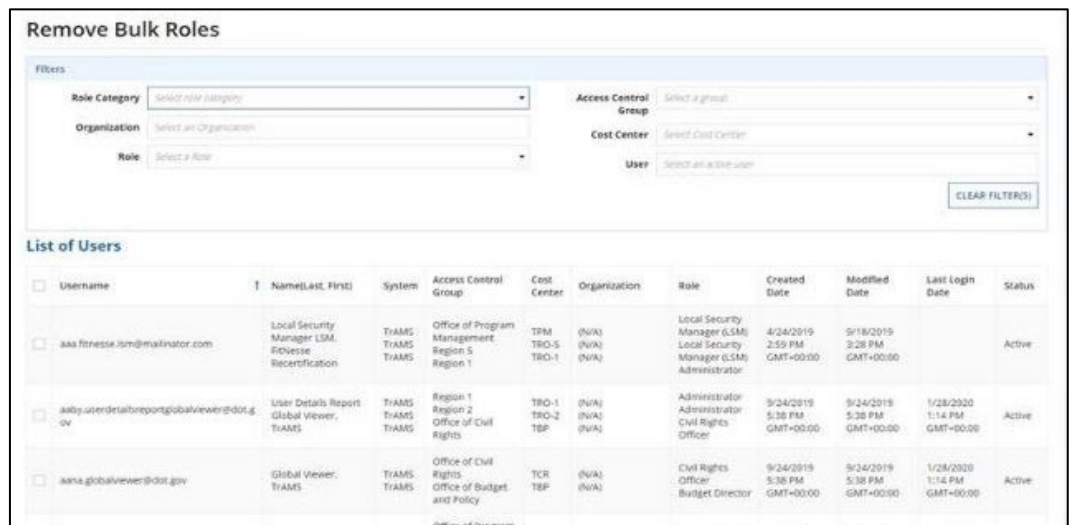

If more than one user or external user's user roles needs to be removed from the system, the **System Admin, Global Security Manager, Validation Analyst, LSM** may remove user roles through this action. The role removal process will provide validations and will only allow users to remove the user roles that are not valid for them anymore.

To remove bulk roles at once:

- 1) Click the **Remove Bulk Roles** from the **Actions** tab.

- 2) The **Remove Bulk Roles** page displays the available users with existing roles they are assigned with can be removed.

- 3) The user is provided with filters to narrow down specific users.

Remove Bulk Roles

Filters

Role Category: Recipient
 Organization: 1334 - Transportation, Connecticut Department Of (CONNDOT)
 Role: Select a Role

Access Control Group: Region 1
 Cost Center: TR100 - Region 1 (TRD-1)
 User: Select an active user

[CLEAR FILTERS](#)

- 4) Once filters have been applied, the user can select multiple users by clicking anywhere on user record row from the **List of Users** grid to see what roles they currently have; selected users are highlighted blue. Clicking on a selected user record again will deselect that user.

- 3) Make any necessary changes. The same field validations that applied at the time of user creation will still apply (e.g., checks for phone number format).
- 4) Click **Save** to update the user's profile with the new and/or changed information. It may take a few minutes for all the information to save.

- 5) Select **Cancel** to return to the **Related Actions** page without saving any changes.
- 6) All changes should be visible on the **User Details** page. Additionally, an audit trail of all changes will be added to the user's **History** page.

6.3.2 Related Action: Manage User Roles

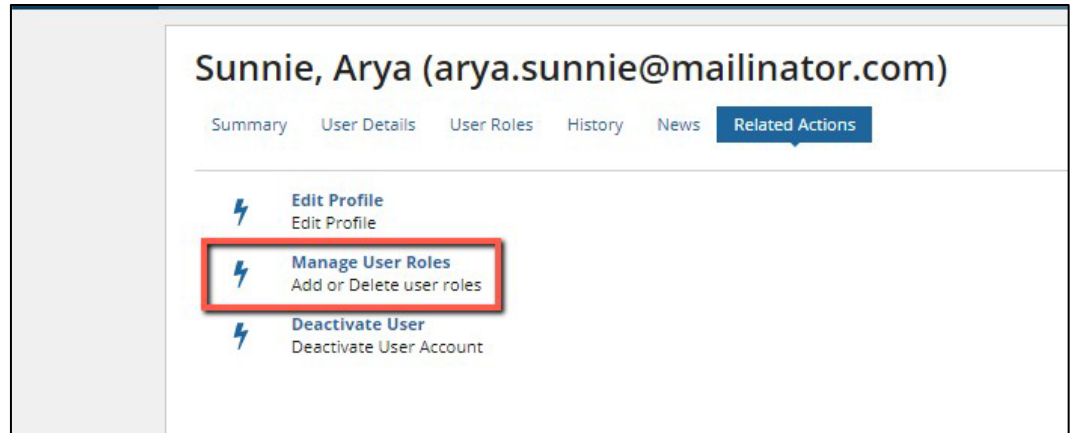

Once the user has been created, the **User Manager, LSM, Validation Analyst or GSM** can add or remove roles to adjust a user's access and permissions. Security rules govern which types of roles can be added or removed from a user. **User Managers** can only add or remove roles for their own organization(s). **LMSs and Validation Analyst** can only add roles within their Cost Centers. **GSMs** can add or remove any role within their associated system. To assign roles to a user in multiple organizations or across multiple systems, the **User Managers** from each organization will need to add the corresponding roles. The appropriate **GSMs or LSMs** can be contacted to facilitate role assignment or User Manager coordination. User roles can be added and deleted at the same time.

When adding/removing roles, note that users cannot have both Read Only and active roles in the same organization (or Cost Center for FTA users).

For ease in explaining, additions and deletions are presented separately within this document.

To add roles to a user:

- a. Go to the user's record and click **Related Actions**.
- b. Click **Manage User Roles**.

- c. The **Manage Roles** page displays. Only roles that the user can manage are visible in the **User Roles** table.

+ ADD NEW ROLE

- g. Potential roles for the user are listed along with default information about the user's system, role, cost center, etc. In the screenshot below, only roles available to TrAMS Recipients are listed. These roles will be granted only for the Organization that is listed.

Add/Update User Roles

#	System	Role Category	Role	Access Control Group	Organization	Cost Center	Justification Document	Status	Comments			
1	TrAMS	Recipient	User Manager	Office of Program Management	1429 - Philadelphia City Of	0500 - Office of Program Management (TRM)	Approval	Approved				
2	TrAMS	Recipient	User Manager	Office of Administration	2705 - National Science Foundation	0500 - Office of Administration (TAD)	Test	Approved				
3	TrAMS	Recipient	Select a Role...		1618 - Association Of Monterey Bay Area Government	7490 - Region 9 (TRD-9)	and up date	Approved				
4	TrAMS	Recipient	Developer		1506 - Central Arkansas Transit Authority	7800 - Region 5 (TRO-6)	N/A	Approved				
5	TrAMS	Recipient	Official		1277 - Bi-State Regional Commission	78700 - Region 7 (TRO-7)	Test1	Approved				
6	TrAMS	Recipient	MPB Reporter									
			JPC Procurement Officer									

- h. Roles are further distinguished in terms of whether they require **Approval** and/or a **PIN** for completing select actions within their system(s). Roles that require **Approval** must be approved at a level above the User Manager.

Note: *Users cannot have a Read Only role and an active role in the same organization. If your user has a Read Only role and needs an active role, you will need to **first** delete the Read Only role.*

- i. Select **one** of the roles presented. Only one (1) role can be added at a time. System specific rules will be enforced. See [Appendix B](#) for a list of system specific rules. Click **Add** to complete the assignment of a role to the individual user.

- m. Click **Upload** to browse for the document to add. Using the Windows browse function, find and select the document to upload. Once the document has been identified, click **Open**.

The screenshot shows a web application interface for adding a document. At the top, there's a table with two rows of data. Below this, a form titled '(#2) Add Document For Selected Role' is displayed. The form has several fields: 'System' (TrAMS), 'Cost Center', 'Organization' (N/A), 'Document*' (with an 'UPLOAD' button and a 'Drop file here' prompt), 'Document Name*' (with a character count of 0/255), and 'Description*' (with a character count of 0/4000). An 'UPLOAD DOCUMENT' button is located at the bottom right of the form.

- n. Click **Upload** to browse for the document to add. Using the Windows browse function, find and select the document to upload. Once the document has been identified, click **Open**.

- o. The appropriate document will be uploaded.
- p. Descriptive information must be entered to make the justification document accessible to other users and to explain what the document contains. A clear document name is essential for other users to know the document's purpose and coverage. A description that provides even more details about the document's intent, content, etc., is also advisable. The maximum characters remaining will show beneath the document name and description fields.

6.3.4 Update Role Documentation

The **User Manager** may further need to manage role documentation or add a role comment for a user. Role documentation can only be updated for roles in “Requested” status. These updates may be necessary if the wrong document was uploaded or additional documentation was requested by the LSM, Validation Analyst or GSM reviewing the role request.

To manage role documentation for a user:

- Go to the user’s record and click **Related Actions**.
- Click **Manage User Roles**.

- The **Manage Roles** page is displayed, allowing the **User Manager** to manage documentation.

6.3.5 Related Action: Deactivate User

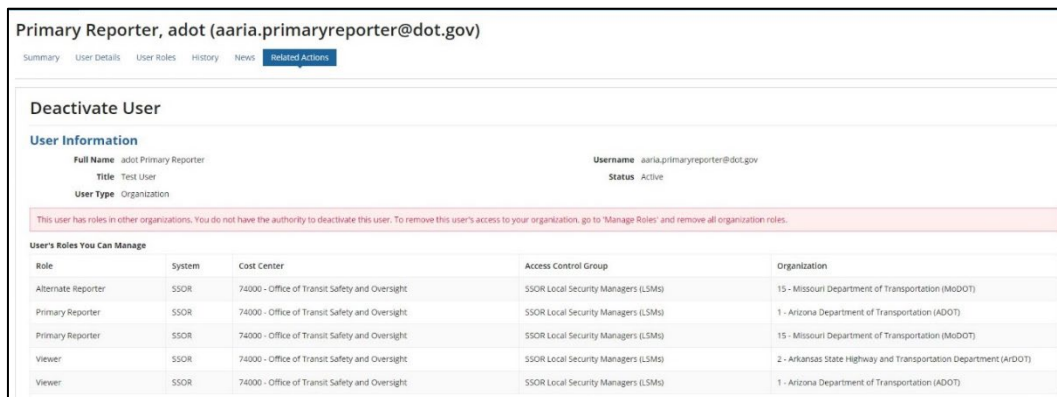

Deactivating a user will deactivate the user across the entire FTA platform – the user will be unable to log in and will have access to all systems (e.g., TrAMS, NTD and DGS) terminated. As part of deactivation, user roles are removed. Users can only be deactivated by individuals who have permission to delete all the assigned roles. For example, if a user is associated with multiple organizations, the **User Manager** for any single organization will not be able to deactivate the user. Instead, the **User Manager** can remove user roles to remove the user's access to their organization, or, in an extreme situation, the **User Manager** can contact their **LSM or Validation Analyst** for further support. *Only users with account status Active or Active (Locked) can be deactivated. A user's status can be found on their User Details page.*

To deactivate a user:

- 1) Go to the user's record and Click **Related Actions** and then click **Deactivate User**.

- 2) If the User Manager, LSM, Validation Analyst or GSM does not have approval to deactivate the user, the **Deactivate User** page will display a ribbon message. In this case, you can remove the user's access to your organization by going to **Manage Roles** and removing all roles for your organization(s).

- 3) Otherwise, the **Deactivate User** page will display with a presentation of basic **User Information**, the **User's Roles You Can Manage**, and the **Tasks Assigned Directly** to the user.

Deactivate User

**** This is a system generated email. Please do not reply.

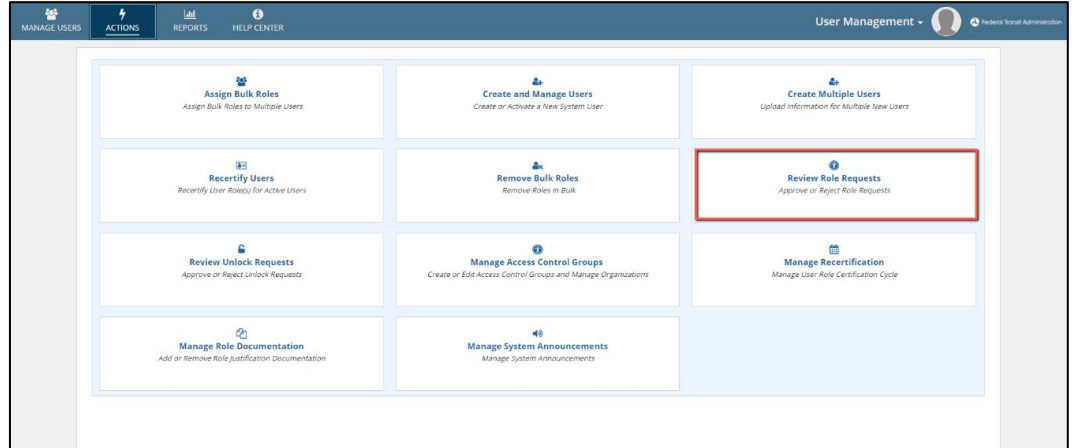

6.3.6 Action: Review Role Requests

Some roles added by **User Managers** require elevated approvals. This includes the TrAMS Recipient roles (Submitter, Official, and Attorney). *No NTD or DGS roles require elevated approvals currently.* When these roles are added on the **Manage Roles** page, a role request is generated. The appropriate **LSMs or Validation Analyst** will receive an email notification with a link to the **Review Role Requests** action. Role requests can be reviewed by any **LSM or Validation Analyst** within the appropriate Cost Center. In extreme cases,

GSMs can also complete the role request review. **GSMs** will see all active role requests for their system.

To review a role request:

- 1) Go to the Actions tab and click **Review Role Requests**.

- 2) The **Approve Roles** form will open.
- 3) Use the filters to narrow down role requests.

APPROVE

REJECT

- 9) You will be prompted to confirm your decision “Are you sure you want to approve the selected role request?” Click **Yes** to approve. Select **No** to cancel and return to the form. (If you clicked **Reject**, a similar prompt will be given “Are you sure you want to reject the selected role request?”)

Are you sure you want to approve the selected role request?

YES

NO

- 10) Once a decision is submitted, the role request will disappear from the table. The User Manager and impacted user will be notified of the decision via email. If the role was approved, the role will be added to the user’s account.

6.3.7 Action: Review Unlock Requests

FTA is required to comply with U.S. DOT Information Technology (IT) Security guidelines. One key feature of this compliance includes automatic account locks after 60 days of user inactivity. Since the FTA systems all reside on the same software platform and use the common FACES access mechanism, this security feature applies to all software systems on the FTA platform.

FACES automatically locks user accounts if the user has not signed into their account within 60 days. The account lock prevents users from accessing any of the software systems on the FTA platform. Automated warning emails are issued to inactive users 15, 10, and 5 days prior to lockout.

Users are notified that their accounts have been locked via automated emails. Users who are locked out will still be able to log into their FACES account, but

their access will be severely restricted. The standard Appian tabs (***News, Tasks, Records, Reports,*** and ***Actions***) will contain a limited amount of data and security-related actions. For example, no tasks will be available.

Locked users can unlock their accounts via one of two methods: 1) correctly answer previously set up security questions; or 2) submit an unlock request. Both methods are available from the **Actions** tab. It is preferred that all users attempt to self-unlock their accounts by answering their previously setup security questions before submitting an unlock request; this is the quickest and most efficient route to unlock an account. Once an account is unlocked, the user's access will be fully restored.

If Security Questions were not previously set up or the answers could not be remembered, user will submit an **Unlock Request** by selecting ***Unlock Account*** from their **Actions** tab. An email for the **Unlock Request** is automatically routed to the appropriate **User Manager**.

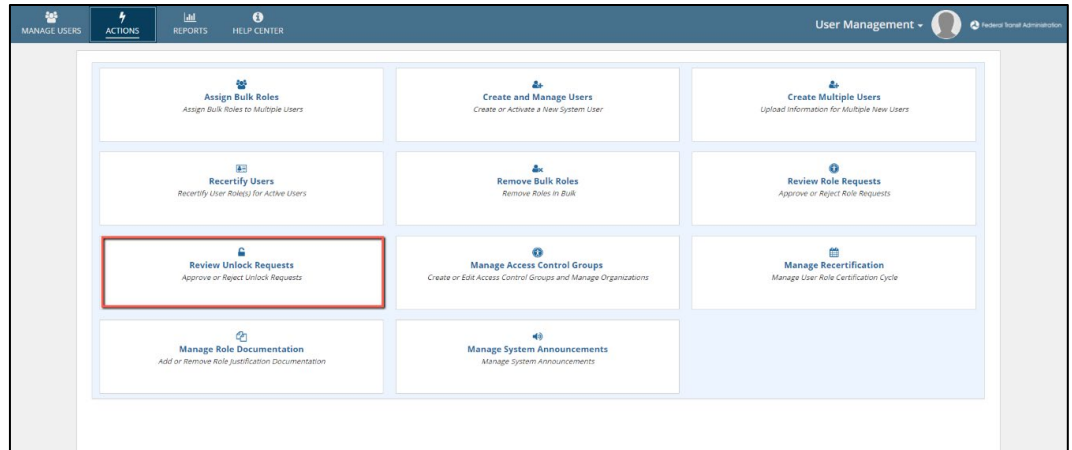

After submitting the **Unlock Request**, the **User Manager (UM), Local Security Manager (LSM) or Validation Analyst** will receive an email notification of the unlock request with a hyperlink to review the request. Upon receiving the **Unlock Request**, the **UM, LSM or Validation Analyst** can either approve or deny the request. The user will receive an email notification confirming either decision.

If the request is approved, the account will unlock, and all previous permissions will be restored. If the request is denied, the account will remain locked. If the account remains locked, the user should call their User Manager directly to resolve the issue. If the appropriate User Manager is not known, the user can call the Help Desk.

Note:	<i>If the organization does not have a User Manager or the user is a User Manager, the Unlock Request will go to the appropriate Local Security Manager (LSM) for resolution. If the user belongs to multiple organizations, the request will go to the appropriate User Manager of each organization.</i>
--------------	--

To reply to an **Unlock Request**:

- 1) Navigate to the **Actions** tab and click ***Review Unlock Requests***.

- 2) System Displays **Review Unlock Request** Page with locked user's information.

Review Unlock Request
Click the name of a locked user to view the user's unlock request.

- 9) A message will display asking the user to confirm his or her decision. Select **Yes** to proceed or select **No** to remain on the review unlock request page.

Are you sure you want to approve the selected user's unlock request?

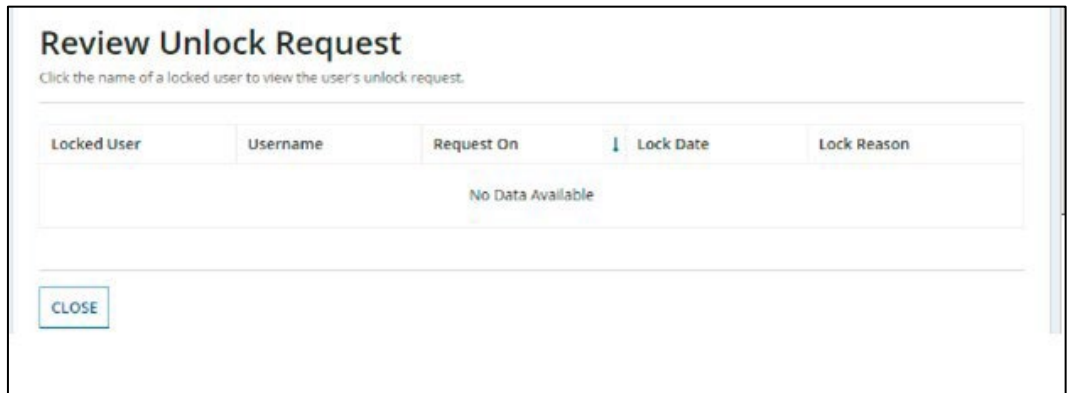

NO YES

- 10) A message will display that indicates the decision for the Unlock Request is being processed. Click **Close**.

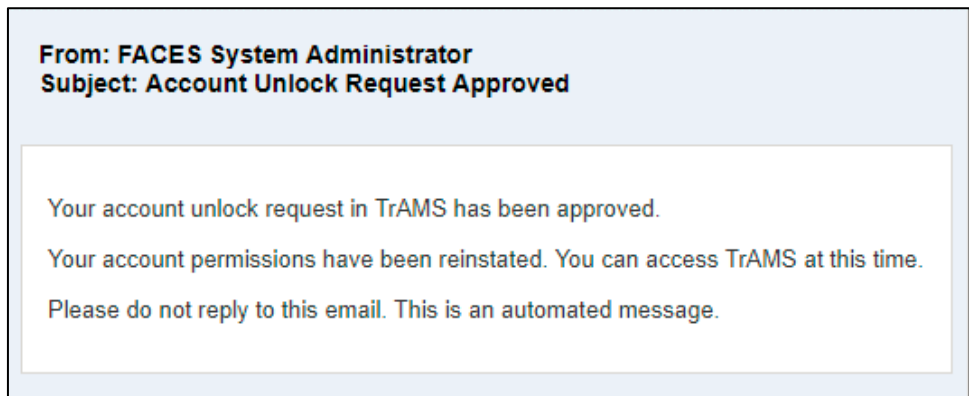

- 11) The **Review Unlock Request** page displays. The **Unlock Request** is no longer listed.

Note: *There may be other Unlock Requests in the queue. Select **Close** to return to the **Actions** tab.*

- 12) The user will receive a confirmation email regarding the approval or rejection of their request.

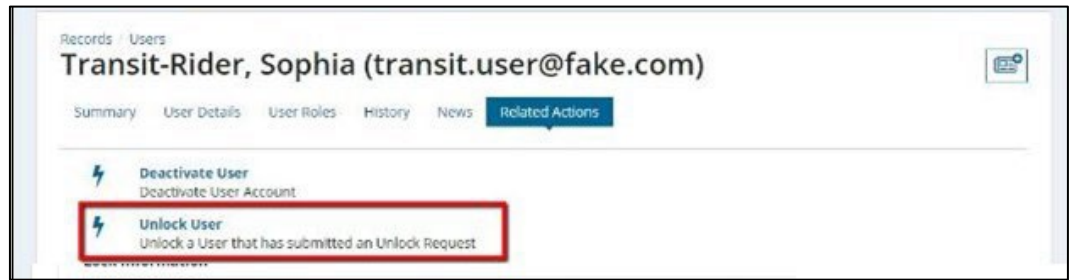

6.3.8 Related Action: Unlock User

If any user is locked in the system, an additional related action will become available on the user's record, **Unlock Account**. This related action allows a **User Manager, LSM, Validation Analyst** or **GSM** (as appropriate) to unlock a user directly from the user's profile. This related action will remain visible if the user's record is locked. It is intended as a backup method of unlocking an account.

To unlock a user's account from the profile related action:

- 1) Navigate to the user's record and click the "Unlock User" related action.

- 2) A page will display information about the user's account, the reason for the account lock, and the user's unlock request.

- 4) In the confirmation screen confirm you want to unlock user.

- 5) On selecting **Yes**, the system will proceed with deactivation. The **Unlock in Progress** page will display. Click **CLOSE** to go back to the **Related Actions** or **REFRESH** to refresh the page.

Note: Whenever any user is unlocked after being locked due to re-certification then all that user's active roles will be automatically re-certified.

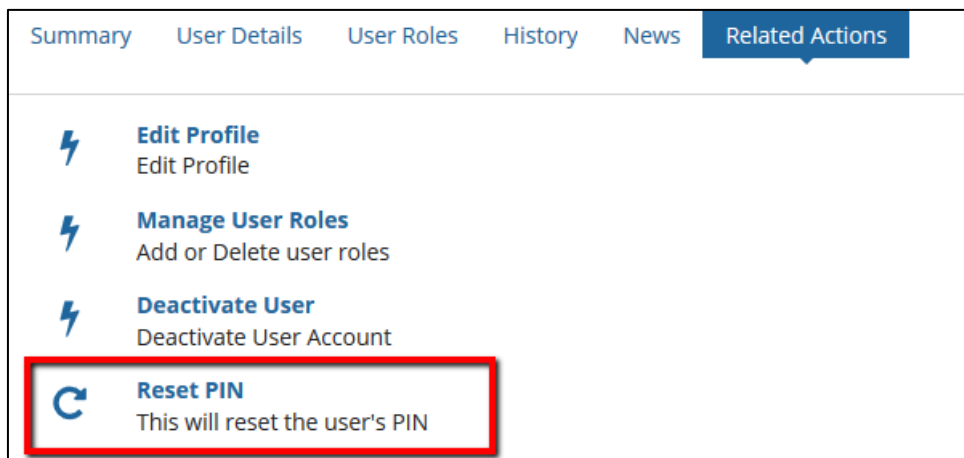

6.3.9 Related Action: Reset PIN

If a user cannot remember either their existing PIN or security question answers, the user can contact someone in their users' management chains (User Manager, LSM, or GSM) to reset their PIN.

Note: The Reset PIN action only appears for User Managers, LSMs or GSMs.

How to reset a user's PIN:

- 1) Navigate to the user's record and select **Related Actions**.
- 2) Click **Reset PIN**.

- 3) The Reset PIN page displays a warning message and notifies the user management chain that they are about to reset a user's PIN and please verify that request to reset the user's pin came from the intended user.

Note:	There is no verification in the system for PIN Reset requests. Once the PIN is reset, the previous user PIN is no longer valid.
--------------	---

- 4) Select **Cancel** to return to the previous page without saving any changes.
- 5) Select **Submit** to finalize resetting the user's PIN.
- 6) The **Related Actions** page displays.

6.4. Reviewing Monthly User Comparison Report

The User Comparison Report script generates a report that displays all users that hold both an account in the same system with supervisory roles and an account with non-supervisory roles.

It collates user data across several tables - including contact and address information, then compares users with supervisory roles against those with non-supervisory roles. The resulting report shows a row for each pair of roles across two different accounts held by the same person:

- Supervisory, and
- Non-supervisory.

The recipients of the report are the Global Security Managers (GSMs).

Once the report is received, the expectation is to investigate any items in question within the report.

7. Recertification

Recertification is a process that requires the user's manager to review and recertify (or reject) a user's system roles to satisfy DOT security requirements. The recertification process happens annually, and the user's managers must review and re-certify all users that report to them.

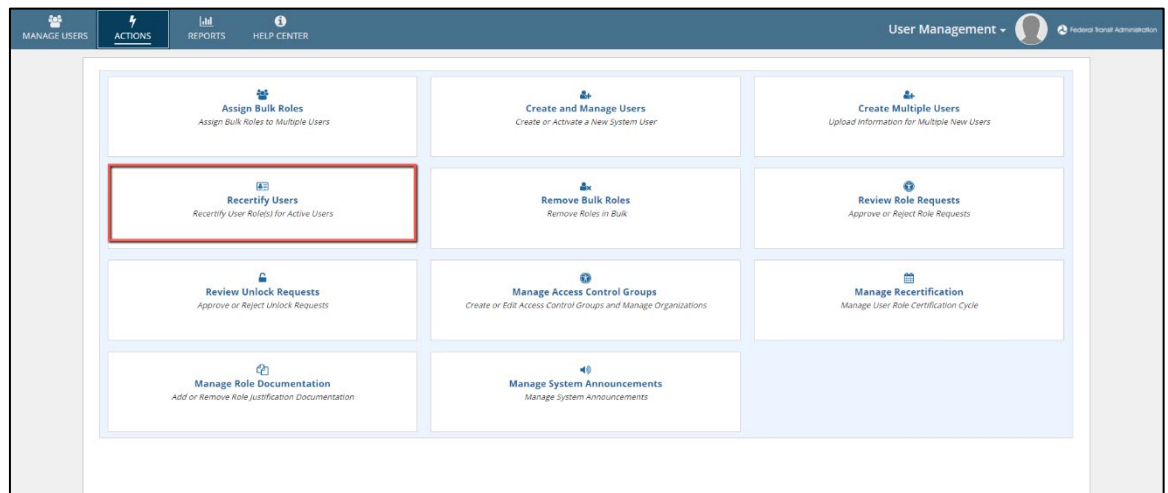

7.1. Help Desk Information

The recertification process trigger systems on the TriAD platform to send email notifications to role management users (Certifiers) alerting them when they are required to recertify users. After receiving the email notification, each Certifier has a certain number of days to recertify the user group specified in the email. The email will provide this timeline. Users who are not recertified will have their roles removed; users with no roles will be automatically locked out of the system. Users who have multiple roles will have to have each role recertified by their Certifier; the Certifier may elect to only recertify some of a user's roles. In this situation, the user will lose only those roles and will not be locked out of the system. Users who have lost roles or have been locked out of the system will have to contact their Certifier to reinstate their roles. The Certifiers (GSMs, LSMs, User Managers) are required to recertify users with a specific period, depending on the system. This period is called the recertification window.

Note: If a user becomes locked, they can self-unlock themselves or submit unlock requests as detailed in Section [7.2](#).

How to recertify a user role:

- 1) **Certifier** logs into System and clicks Actions.
- 2) Click **Recertify Users**.

- 3) The **Recertify Users** page is displayed, allowing the **Certifier** to filter users to recertify.

You may not manage roles for locked users

Please unlock the user prior to managing user roles.

DE **GENERATE REPORT** **MANAGE ROLES** **DE-CERTIFY** **CERTIFY**

- ii. The **Certifier** will click the **Yes** button.
- iii. The user's role is de-certified.

- If a user has any existing roles, then roles that are de-certified will be deleted.
- If a user has no other existing certified roles the decertify action will deactivate the user.

h. Can click on the **Certify** button:

i. The system displays a confirmation message.

The screenshot shows a web application interface. At the top, there is a list of users with checkboxes: Ealy Debbie, Sally Submitter, Joan TRAMS, and Arya Test (checked). A modal dialog titled 'Certify Role(s)' is open, asking 'Are you sure you want to certify the roles for the selected users? Only roles that require recertification will be recertified.' with 'NO' and 'YES' buttons. Below the dialog is a table titled 'User Roles' with columns: Username, System, Role Category, Role, Access Control Group, Cost Center, Organization, Last Certified Date, and Certified?. The table contains one row for 'arya.test@mailinator.com'. Below the table is a 'Recertification Comments' section with a text area and a 'Document' upload section. At the bottom, there are buttons: CLOSE, GENERATE REPORT, MANAGE ROLES, DE-CERTIFY, and CERTIFY.

ii. The **Certifier** will click the **Yes** button.

iii. User's role is certified until next year.

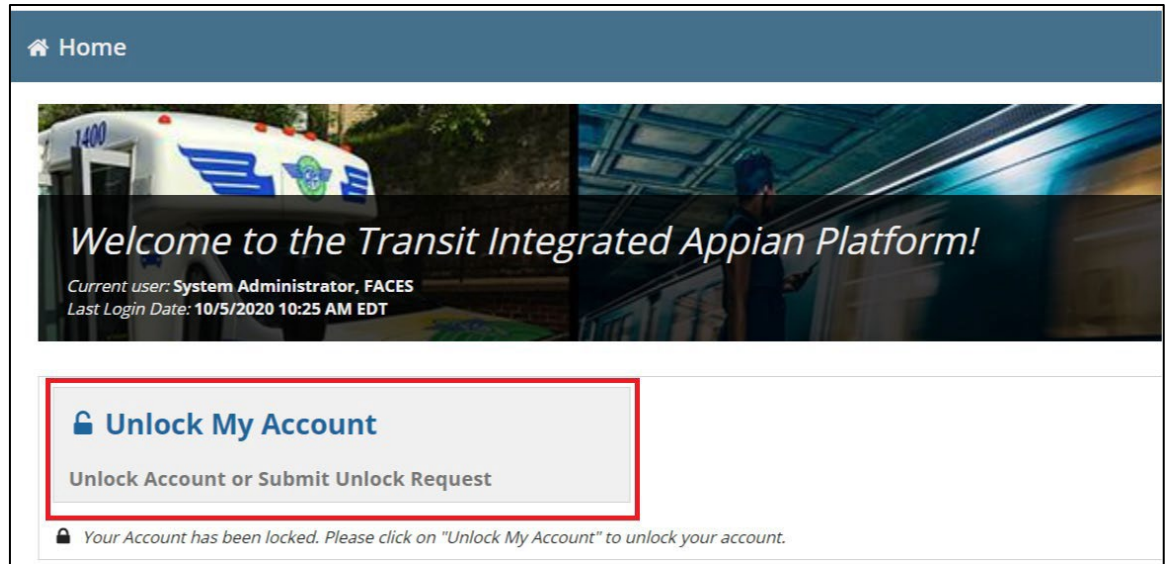

Note:	<i>If the certifier does not recertify their assigned users before the end of the recertification window, all the uncertified users will be locked. Users locked because of recertification activities will receive an email to inform them, they no longer have access to the system. If they are not unlocked within two weeks, users locked because of recertification activities will be deactivated.</i>
--------------	---

7.2. User Lock/Unlock Request Process

A user account can be locked if a Certifier does not recertify the user's role during the recertification period. The user will be required to submit an Unlock My Account request from his or her system. A locked user cannot perform any action on the system until his or her account is unlocked.

How a user can request to have his or her account unlocked:

- 1) **User** logs into System.
- 2) **User** clicks **Unlock My Account**.

- 3) The **System** displays the **Unlock Account** page.
- 4) **User** enters comment and clicks **Submit** button.

Note: *The user will not be able to select the Answer Security Questions option.*

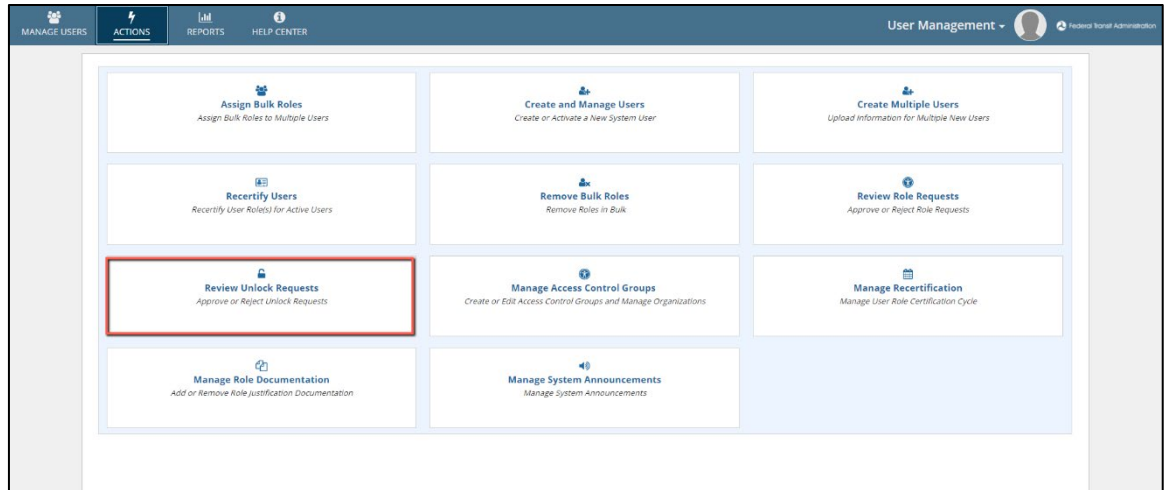

7.3. Certifier Unlocking User's Locked Account

If a user submits an unlock request during recertification, their Certifier will receive an email notification to unlock the account. A user account locked during recertification will be deactivated two weeks after the end of the recertification window if the Certifier does not unlock the account.

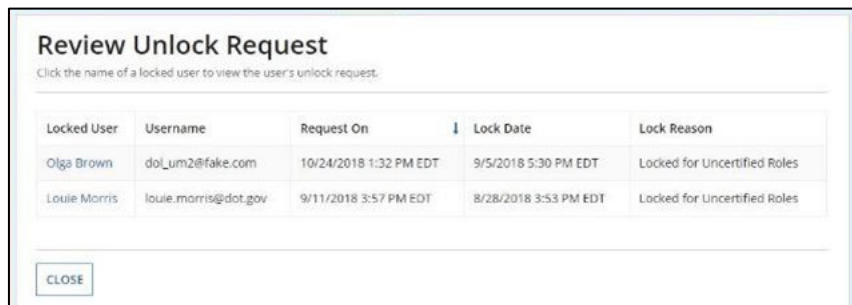

Hint: Alternatively, a certifier can use Unlock related action to unlock locked users. There is no mandate for users to submit unlock request in this case.

How a **Certifier** can unlock a user's account:

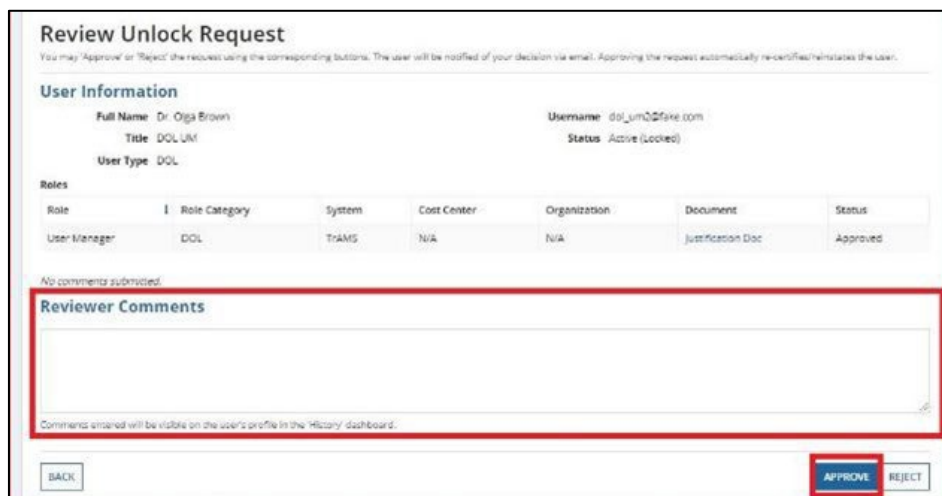

- 1) **Certifier** logs into System and clicks Actions.
- 2) **Certifier** clicks **Review Unlock Request**.

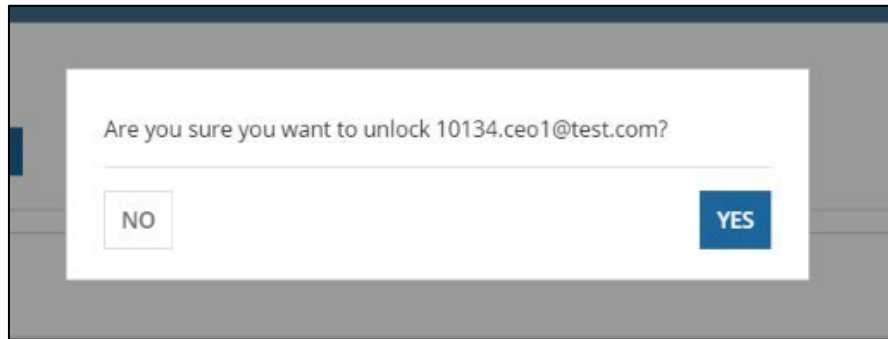

- 3) The **System** displays Review Unlock Request page.
- 4) **Certifier** clicks on locked username.

- 5) The **System** displays User information page.
- 6) **Certifier** may enter text to explain the unlock action in the Reviewer Comments section.
- 7) **Certifier** clicks on Approved button.

- 8) In the confirmation screen confirm you want to unlock user.

- 9) On selecting **Yes**, the system will proceed with deactivation. The **Unlock in Progress** page will display. Click **CLOSE** to go back to the **Related Actions** or **REFRESH** to refresh the page.

Note:	<i>Approving the request automatically re-certifies/reinstates the user's role. Certifier can reject the unlock request and the user account will continue to remain locked.</i>

Appendix A: Acronyms and Definitions

The following table provides definitions for abbreviations and acronyms used in this document.

Acronym	Definition
DGS	Discretionary Grant System
DOL	Department of Labor
DOT	Department of Transportation
ECHO-Web	Electronic Clearing House Operation Web
FACES	FTA Access Control and Entry System
FTA	Federal Transit Administration
GSM	Global Security Manager
LSM	Local Security Manager
NTD	National Transit Database
SSOR	State Safety Oversight Reporting
TrAMS	Transit Award Management System
UM	User Manager
URL	Universal Resource Locator (i.e., web address)

Appendix B: User Role Rules & Actor Role Matrices

This appendix contains user role assignment rules and the actor role matrix by system (e.g., TrAMS, NTD or DGS). For information about the privileges a role confers, see the appropriate user guide for the system in question.

1. FTA Platform Rules

- 1) FTA user type is platform wide.
- 2) FTA users can only be assigned roles that match their platform user type.
- 3) FTA Users can only be assigned FTA user roles.
- 4) Organization users can only be assigned organization user roles.
- 5) External users can only be assigned roles that match their external user subtype.
 - a. Auditors can only be assigned auditor roles.
 - b. Contractors can only be assigned contractor roles.
 - c. DOL Users can only be assigned DOL roles.

2. NTD Rules

General Rule: Each reporter user can have up to two roles per Reporter organization (if a user has two (2) roles, one role must be User Manager.)

NTD Reporter Role	Rules
User Manager	<ul style="list-style-type: none"> The User Manager role can be held in combination with any NTD Reporter role except Viewers. User Managers can create all other users within a Reporter organization.
CEO	<ul style="list-style-type: none"> The CEO role must be assigned by an FTA user. The maximum number of CEOs within a single Reporter organization is one (1).
NTD Contact	<ul style="list-style-type: none"> The maximum number of NTD Contacts within a single Reporter organization is one (1).
Editor	<ul style="list-style-type: none"> Multiple users can be assigned the Editor role.
Viewer	<ul style="list-style-type: none"> Multiple users can be assigned the Viewer role. Viewers cannot also be assigned the User Manager role.
Safety Contact	<ul style="list-style-type: none"> The maximum number of Safety Contacts within a single Reporter organization is one (1).
Safety Editor	<ul style="list-style-type: none"> Multiple users can be assigned the Safety Editor role.
Safety Viewer	<ul style="list-style-type: none"> Multiple users can be assigned the Safety Viewer role.

CEO Delegate	<ul style="list-style-type: none"> Multiple users can be assigned the CEO Delegate role. Only CEOs and CEO delegates can assign the CEO delegate role.
--------------	--

3. TrAMS Rules

TrAMS Recipient Roles	Rules
Read Only	<ul style="list-style-type: none"> The Read Only role cannot be assigned at the same time as any other recipient roles within a single recipient organization.
User Manager	<ul style="list-style-type: none"> The User Manager assignment must be approved by an LSM or GSM.
Submitter	<ul style="list-style-type: none"> The Submitter assignment must be approved by an LSM or GSM. Role assignment requires attachment of Delegation of Authority letter.
Developer	<ul style="list-style-type: none"> No rules apply to this assignment
Official	<ul style="list-style-type: none"> The Official assignment must be approved by an LSM or GSM. Role assignment requires attachment of Delegation of Authority letter.
Attorney	<ul style="list-style-type: none"> The Attorney assignment must be approved by an LSM or GSM. Role assignment requires attachment of Delegation of Authority letter.
Civil Rights	<ul style="list-style-type: none"> No rules apply to this assignment
FFR Reporter	<ul style="list-style-type: none"> No rules apply to this assignment
MPR Reporter	<ul style="list-style-type: none"> No rules apply to this assignment
JPC Procurement Officer	<ul style="list-style-type: none"> No rules apply to this assignment

TrAMS FTA Roles

The table below shows which roles are applicable to each Cost Center

	Office of Administrato r	Office of Administration	Office of the Chief Counsel	Office of Communicatio n and Congressional Affairs	Office of Program Manageme nt	Office of Budget and Policy	Office of Research, Demonstration , and Innovation	Office of Civil Rights	Office of Planning and Environment	
	TOA	TAD	TCC	TCA	TPM	TBP	TRI	TCR	TPE	
TrAMS Roles - FTA	61000	62000	63000	64000	65000	66000	67000	68000	71000	
Supervisor	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	
Local Security Manager	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	
Intake Manager	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	
Pre-Award Manager	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	
Post-Award Manager	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	
Reservationist	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	
Administrator	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes

4. DGS Rules & Actor Role Matrix

4.1. Rules

		Rule Type		
Role Category	Roles	Incompatibility	Association Property	Rule
FTA Staff	FTA Staff Read-Only	X		Unable to be held in combination with any other DGS role
	Global Viewer	X		Unable to be held in combination with any other DGS role
DOT	External Reviewer	X		Unable to be held in combination with any other DGS role

4.2. Actor Role Matrix

Role Category	Roles	Rule Type														Reports			
		Pending Reviews	Quality Control Reviews	Grant Applications	Fatal Flow Review	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management	Program Management
External User to FTA/DOT	DOT Users																		
	System Administrator																		
FTA Staff	FTA Staff Read-Only																		
	Local Security Manager (LSM) Management																		
	Program Administrator																		
	Team Lead																		
External User to FTA/Non DOT	Global Users																		
	Global Viewer																		
External User to FTA/Non DOT	Not DOT Users																		
	External Reviewer																		

5. SSOR Rules & Actor Role Matrix

5.1. Rules

		Rule Type		
Role Category	Roles	Incompatibility	Association Property	Rule
FTA Staff	Global Viewer	X		Unable to be held in combination with any other SSOR role

5.2. Actor Role Matrix

Notes

1. FTA Users: This user type includes FTA employees and federal contractors who directly support FTA. All FTA users have FTA email accounts ending in @dot.gov.

These users generally have higher level access and management capabilities across all systems.

2. Organization Users: This user type includes individuals who are employed by or support an organization that uses an FTA platform software system. The users are grouped by their organization(s).

3. External Users: This user type includes individuals external to FTA but provide support or oversight to one of the FTA platform software systems. External users have can five sub-types in FACES: Auditors, Contractors, Department of Transportation (DOT, though separate from the FTA), Non-DOT, and Department of Labor (DOL) users. The SSOR system utilizes the Auditor/Non-DOT and Department of Transportation (DOT) External type users.

9. SMS Rules & Actor Role Matrix

9.1. Rules

Currently, there are no association property rules or incompatibility rules for any SMS roles within the same organization.

9.2. Actor Role Matrix

SMS Safety Management System									
Document Title: Actor Role Matrix		Notes							
Purpose of document: This matrix is designed to provide guidance on the assignment of roles and responsibilities across SMS functions.		1. In regard to General Directives, Reviewers have access to all functionality, and System Administrators have access to all functionality except for submitting directives.							
Access to SMS Sites: All Active Roles		2. In regard to SMS Report creations, System Administrators do not have the ability to save or submit an SMS form.							
Legend		3. This matrix only lists the distinct SMS user actions which vary across roles. FACES management roles (such as GSM, LSM, & UM) are not listed, as they are utilized only for provisioning and recertification purposes.							
Meaning		4. Export to Excel is based on user's access to their corresponding agencies.

Appendix C: FTA Cost Centers

FTA is organized into 10 Regional FTA offices and 11 FTA Headquarters offices. These “cost centers” have acronyms and numbers that are used throughout FACES. Each organization is tagged to a cost center. The FTA cost centers are:

Cost Center Name	Acronym	Number
FTA Regional 1 Office	TRO-1	78100
FTA Regional 2 Office	TRO-2	78200
FTA Regional 3 Office	TRO-3	78300
FTA Regional 4 Office	TRO-4	78400
FTA Regional 5 Office	TRO-5	78500
FTA Regional 6 Office	TRO-6	78600
FTA Regional 7 Office	TRO-7	78700
FTA Regional 8 Office	TRO-8	78800
FTA Regional 9 Office	TRO-9	78900
FTA Regional 10 Office	TRO-10	79000
Office of Administrator	TOA	61000
Office of Administration	TAD	62000
Office of the Chief Counsel	TCC	63000
Office of Communication and Congressional Affairs	TCA	64000
Office of Program Management	TPM	65000
Office of Budget and Policy	TBP	66000
Office of Research, Demonstration and Innovation	TRI	67000
Office of Civil Rights	TCR	68000
Office of Planning and Environment	TPE	71000
Office of Transit Safety and Oversight	TSO	74000
Office of Regional Services	TRS	78000
