Harrisburg, PA 17120

Subject: Response to Closure Request for FTA-24-5-004 (Safety Oversight for SEPTA's Operations Control Center)

Dear Ms. Biggica,

On April 1, 2025, the Pennsylvania Department of Transportation (PennDOT) submitted a request to close required action FTA-24-5-004, which is associated with Finding 4 of Special Directive 24-5: "Required Actions to Strengthen Safety Oversight of the Southeastern Pennsylvania Transportation Authority's [(SEPTA)] Rail Transit System."

Required Action FTA-24-5-004 requires PennDOT to "conduct an audit of rail operations to focus on the SEPTA Control Center. PennDOT must submit the audit report (and corrective actions if applicable) to FTA for review, approval, and implementation monitoring."

Response to Closure Request

While we appreciate PennDOT's efforts in conducting a thorough and well-documented audit of SEPTA's Operations Control Center and working collaboratively with SEPTA to address the identified issues and improve safety oversight, FTA is unable to close this required action at this time. The required action associated with FTA-24-5-004 specifies that FTA will conduct implementation monitoring for any resulting corrective actions. As PennDOT's audit identified 10 findings of non-compliance and 13 additional safety-related items that may result in corrective action in the future, FTA will observe PennDOT's oversight of SEPTA's progress addressing the approved corrective actions.

FTA will complete verification activities for FTA-24-5-004 and inform PennDOT when the required action is eligible for closure.

Conclusion

If you have any questions, please contact Special Directive Coordinator Syed Ahmed at (202) 603-6765 or syed.ahmed@dot.gov.

We appreciate your continued cooperation and commitment to safety oversight.

Sincerely,

Joe DeLorenzo
Associate Administrator and
Chief Safety Officer
Office of Transit Safety and Oversight
