1. Ratings are point-in-time evaluations by FTA and may change as the projects proceed through planning and design. Project ratings are typically prepared for the *Annual Report to Congress* and for project advancement decisions such as Engineering approvals or construction grant awards.
2. *FY 2027 Annual Report to Congress* or latest ratings
3. 'Committed' means project sponsor has obtained all non-CIG matching funds; 'In Progress' means project sponsor is still working to obtain commitments of all non-CIG matching funds
4. Estimated Grant Dates are based on projects meeting all of the readiness requirements to receive a construction grant, and are subject to change if these items are not completed by project sponsors in a timely manner.

^ This is the date of the Amended Record of Decision reflecting the completion of the Supplemental Final EIS necessitated by the alignment change; Original ROD date was 09/19/2016.

* This is the date the NEPA re-evaluation was completed with a Categorical Exclusion as a result of additional scope added to the project. Original CE date was 7/24/24.
