Subject: Procurement System Review Workshop

Program Area: Procurement

Date: August 27, 2011

The Federal Transit Administration (FTA) is sponsoring a free one-day workshop, **Procurement System Review**, in Sun Valley, Idaho on October 5, 2011.

FTA examines grantee performance and adherence to current FTA procurement requirements and policies using several management tools. FTA is required by 49 U.S.C. §5307 to perform reviews and evaluations of grant programs and to perform a full review and evaluation of the performance of grantees in carrying out grant programs with specific reference to their compliance with statutory and administrative requirements. Accordingly, FTA will perform procurement system reviews as part of its on-going oversight responsibility. The review process assesses the grantee's procurement management practices and program implementations of the FTA funded transit programs to ensure that they are being administered in accordance with specific FTA procurement requirements.

These workshops are for transit professionals responsible for procurement management or managing federally funded projects and professionals responsible for contracting or purchasing transit service or the activities that support the transit service. The workshops are designed to help attendees broaden their understanding of the Federal procurement rules and regulations that shape and define their programs.

The Procurement System Review Workshop will be conducted by transit professionals who are also reviewers for the FTA's Procurement System Review Program. The instructors will provide guidance in each of the 56 areas to be reviewed, answer questions about how to respond to specific review areas, and share industry best procurement practices.
