I-93 Passenger Counts

Despite starting service amidst an economic downturn and a drop-off in leisure travel, the I-93 service is carrying in upwards of 20,000 passengers a month.

❖ I-93 passenger numbers continue to grow every month.

❖ 13% from February to March and continuing into April, though the numbers are incomplete.

The Environmental Benefits of BX

Getting people out of their cars reduces traffic congestion and pollution.
These are the projected savings for Boston Express in 2009 along I-93

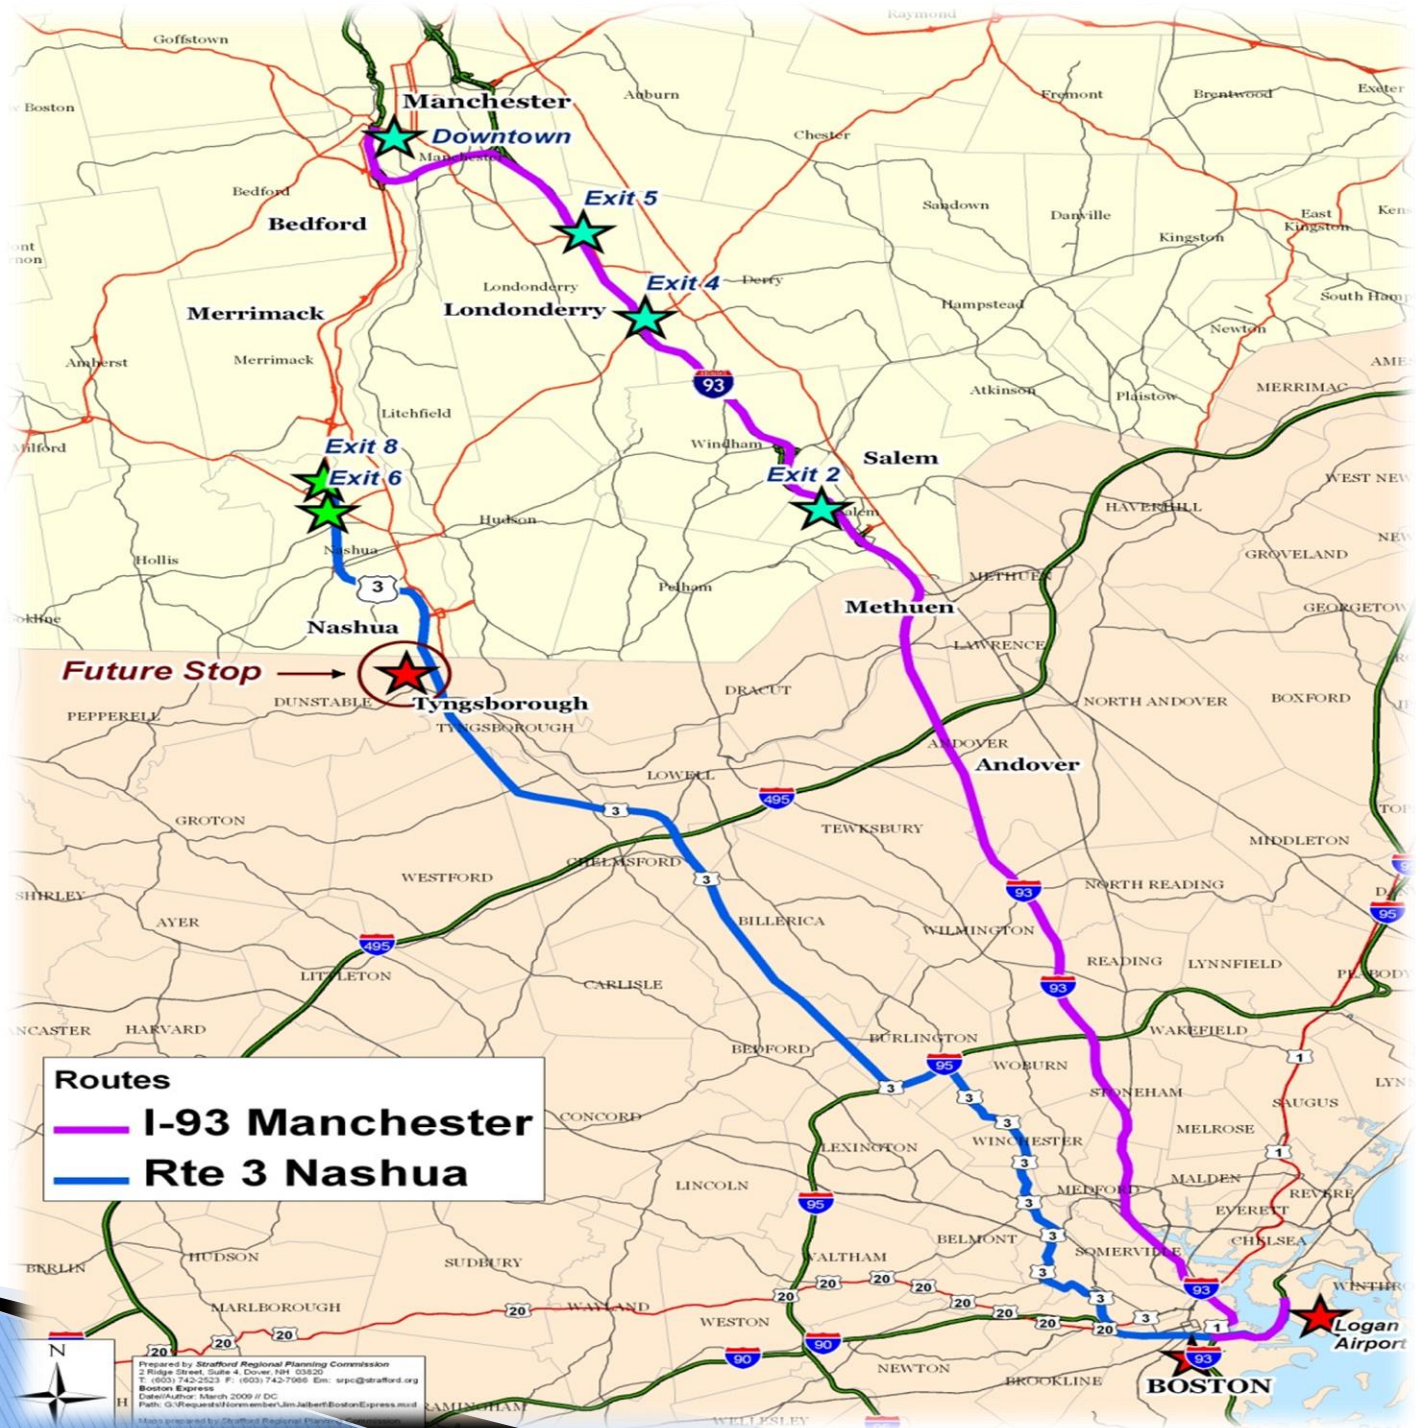

- ❖ 300,000 fewer cars on the road between Manchester and Boston.
- ❖ 7.35 million pounds worth of emissions saved.
- ❖ \$1.65 million dollars saved on fuel by people opting to take the bus.
- ❖ Fewer cars, means safer roads, and a better environment.

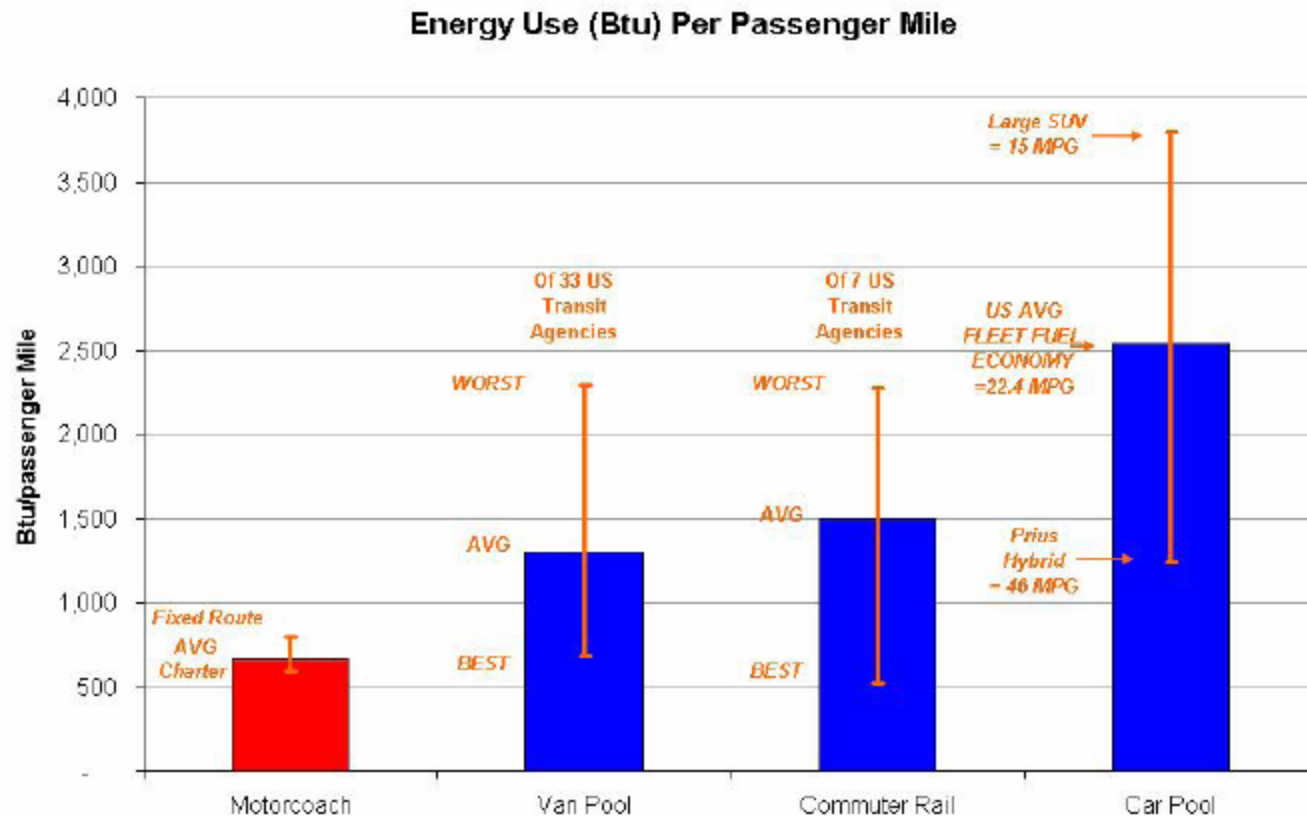

Challenges Ahead

- ❖ Opening a new passenger terminal at the Exit 8 location in Nashua, slated to begin construction and completion by the end of summer 2010.
- ❖ Once Exit 8 is complete, the next objective is to move out of the Welcome Center off Exit 6 into a small facility in Tyngsborough, MA to better appeal to the market in Southern Nashua.
- ❖ Develop a full-fare business in both Nashua and on I-93 to continue to close the gap between expenses and sales.
- ❖ Streamlining the I-93 schedule to meet the needs of Logan Airport passengers, as well as our emerging commuter market in Salem.
- ❖ Accomplishing a self-sufficient Nashua system by February 2010, when the operating subsidy ends.
