Closeouts in TrAMS

External Session
August 7-8, 2019

U.S. Department of Transportation
Federal Transit Administration

Session Agenda

- I. General Overview
 - a) User Roles & Workflow
 - b) Things to Remember
2. TrAMS Demo and Steps
 - a) Create Closeout
 - b) Complete Final Milestone Progress Report (MPR)
 - c) Complete Final Federal Financial Report (FFR)

User Roles

- Developer or Submitter User Roles can create, develop, and validate and transmit a Closeout Request.
- Only the FFR Reporter Role can submit the Final FFR.
- Only the MPR Reporter Role can submit the Final MPR.

Closeout Workflow

What can you do during a Closeout?

- Update the Application Executive Summary
- Update the Period of Performance End Date
- Update the Project Level Narratives
- Update Budget Amounts, Quantity, and ALL Extended Descriptions narratives
- Update Environmental Narrative

Things to Remember

- Does your closeout require additional documentation?
- Are there special conditions to be addressed or closed?
- Have you updated the executive summary to explain any changes?
- If you have pending reports, complete all reports before initiating the closeout

- Have you updated the project narrative and ALLs if they were modified during the budget reconciliation?
- The pending milestones only identify those that passed during the period from the last report to the closeout create date.

Note: If there are unobligated funds left on the award at closeout and you want to draw them down, do that prior to initiating closeout amendment. Wait 3-5 days after a payment request before moving forward with the closeout amendment. This allows the payment time to clear.

Budget Reconciliation

Provide information in the “Updated” Extended Budget Description Field.

Budget Revision #1:

Twenty-one(21) additional vehicles will be added to this ALI, resulting in an increase of \$312,178 of federal funding. This funding can be derived from the following changes:

Reduce 11.80.00 by \$312,178.

These changes are being requested due to the need for replacement buses (gas) by service providers.

The Pennsylvania Department of Transportation (PennDOT) intends to use these funds for the purchase of ninety-six (96) replacement <30-FT gasoline fueled buses. The organizations for which buses are being purchased have shown that they need to replace vehicles due to useful service life criteria being met for age and/or mileage. The year of the vehicles to be purchased will be 2013 and all vehicles will be lift-equipped. Model will be determined at time of order.

See attached POP for details.

Updated Extended Budget Description

Budget Revision #3:

Moving \$257,748 in federal funding from the Community Transit of Delaware County (CTDC) project to the Cambria County Transit Authority's (CCTA) project. The number of the buses under the CTDC project will change from 10 to 4, and the CCTA project from 5 to 6. (See attached Revised POP)
