

State of Good Repair/Transit Asset Management Working Group

Laura Zale

Chair, APTA SGR/TAM Working Group

Manager of Asset Management

Southeastern Pennsylvania Transportation Authority

Philadelphia, PA

Mission

- To develop guidance for transit agencies as they implement asset management programs in compliance with FTA regulations and in alignment with industry best practice. This guidance, which may consist of white papers, training materials, presentations, and webinars, will complement the resources that have been published by the FTA with examples developed by industry peers.

APTA/FTA Webinar Series

Held on April 25, 2019: Communicating TAM Compliance and Programs

- Tools and resources for communicating the value of TAM agency executives and staff. Presentation slides and recording available on APTA website.

Planned, Late Summer 2019: Engaging Your TAM Stakeholders

- Communicating and involving both internal and external stakeholders in transit asset management involves coordinated but different approaches.

Planned, Late Fall 2019: Best Practices for Data Collection

Guidance Published

1. Communicating Your Transit Asset Management Plan ([LINK](#))
2. Improving Asset Management Through Better Asset Information ([LINK](#))

Both are available on the APTA Standards website.

Upcoming Documents

1. **Building Internal Stakeholder Support for Your Asset Management Program**
2. **Communication and Coordination with External Stakeholders for Transit Asset Management**
3. **Procuring Software to Support Transit Asset Management**

Target publish date: Fall 2019

What's Next?

- TAM Policy Creation and Implementation
- Identifying and Incorporation of Risk into TAMPs
- Incorporating Climate Vulnerability into TAMPs
- Workforce Issues and TAM Competency
- Best practices in using condition assessments and predicative maintenance into improved performance
- Best practices in linking TAMPs and Safety Plans
