

FEDERAL TRANSIT ADMINISTRATION

Public Transportation Agency Safety Plan Final Rule

State DOTs

Office of Transit Safety and Oversight

August 29, 2018

Today's Presentation

- Public Transportation Agency Safety Plan (PTASP)
 - PTASP Background
 - PTASP Revisions from NPRM to Final Rule
 - Overview of the PTASP Final Rule
 - Performance Management Framework and the Planning Process
 - Safety Management Systems (SMS)
 - Outreach and Technical Assistance
- Questions

PTASP Background

Statutory Requirements

- Through MAP-21 and the FAST Act, Congress required operators of public transportation systems that receive FTA funds to develop and implement a Public Transportation Agency Safety Plan (49 U.S.C. § 5329(d)).
- FTA is implementing this requirement through the PTASP final rule (49 C.F.R. Part 673).

The PTASP Process

Final Rule Published on July 19, 2018
Effective Date is July 19, 2019
Compliance Date is July 20, 2020

MAP-21 (7/6/2012) ANPRM (10/3/2013)

NPRM (2/5/2016)

Final Rule (7/19/2018)

Effective Date (7/19/2019) Compliance Date (7/20/2020)

Revisions from PTASP NPRM to PTASP Final Rule

PTASP NPRM Changes

NPRM Comments

- 646 comments from 77 individual commenters.
- The majority of commenters were supportive of Safety Management Systems (SMS).

Major Issues Discussed by Commenters		
Comment Category	FTA Response	Reduction in Burden/Cost*
Applicability	Final rule defers applicability to 2,000 small and rural operators under Sections 5310 and 5311.	\$26 million
SMS Requirements	Final rule reduces SMS requirements for small operators.	\$8.4 million
Record Keeping	Final rule reduces overall record keeping burden.	\$6.4 million

^{*}In relation to the costs calculated in the Notice of Proposed Rulemaking (NPRM)

Other Changes

- Eliminates redundant safety performance target provisions and the Transit Asset Management Rule targets.
- Clarifies that training applies to those "directly responsible for" safety (as opposed to safety oversight).
- Clarifies that rail systems may incorporate existing emergency preparedness plans by reference.

Overview of the PTASP Final Rule

PTASP Final Rule: Table of Contents

Title 49—Transportation PART 673—PUBLIC TRANSPORTATION AGENCY SAFETY PLANS Subpart A—General Sec 673.1 Applicability 673.3 Policy 673.5 Definitions Subpart B—Safety Plans 673.11 General requirements 673.13 Certification of compliance 673.15 Coordination with metropolitan, statewide, and non-metropolitan planning processes Subpart C—Safety Management Systems 673.21 General requirements 673.23 Safety management policy 673.25 Safety risk management 673.27 Safety assurance 673.29 Safety promotion Subpart D—Safety Plan Documentation and Recordkeeping 673.31 Safety plan documentation 673.33 Safety plan records

PTASP Applicability and Requirements

Applicability Requirements Would Apply to: Operators of transit systems that Safety Management System receive FTA funds (Section 5307) and all rail transit operators (regardless of funding source). Would Not Apply to: FTA recipients that do not operate Safety Performance Targets transit systems. Commuter rail service regulated by FRA Public Transportation Agency Passenger ferry service regulated by Safety Plan USCG. Rail Agencies Only: Deferring applicability for operators **Emergency Preparedness** that only receive Section 5310 and Plan Approved by Accountable Executive Section 5311 funds (both recipients and and Board of Directors (and SSOA for rail transit agencies) sub-recipients). Annual Review/Update Compliance with Public Transportation Safety **Employee Reporting Program** Program/National Safety Plan Assignment of Chief Safety Officer

Safety Plan Development and Implementation

- Rail transit agencies and large bus operators must develop and implement their own safety plans.
- A State must develop a safety plan for small transit agencies within the State that receive Urbanized Area Formula Program funds (49 U.S.C. § 5307) and operate 100 or fewer vehicles in peak revenue service, unless the transit agency chooses to develop its own safety plan. In either case, small bus operators must implement their own safety plans.

State DOT Role and Responsibilities for Safety Plan Development

- State DOTs must develop safety plans on behalf of all small bus transit agencies within their state (fewer than 100 vehicles in peak revenue service)
 - Grant Manager
 - Transit Program Manager
- SSOAs cannot draft a plan for a Small bus transit agency
- No requirement to draft plans in a particular way
 - One plan for each bus agency or separate plans for each
- Things to think about:
 - Number of small bus agencies within your state
 - Similarities of the small bus agencies
 - Ability of each small bus agency to implement the plan based on staff, resources, etc.

Small Bus Safety Plan Development and Implementation

- Small bus transit agencies must implement the safety plan
- Small bus transit agencies can opt to draft their own plan, but must notify the State DOT they are going to do so
- Some small bus agencies may already have a safety plan, but the *requirement* to have a safety plan is new
- Small bus transit agencies do not need to incorporate all elements of SMS in to their safety plans
 - Only implement Safety Performance Monitoring and Measurement
- Use the Safety Plan Template for Bus Transit on FTA's website

Use of Grant Funds for Safety Plan Development and Implementation

- No additional funding provided to grantees for compliance with the PTASP Final Rule
- Federal funds may be used to develop and implement a safety plan:

• 5303	• 5309
• 5304	• 5337
• 5307	• 5339

 SSOA funds may not be used for any bus activities, only to be used for rail activities

Safety Plan Approval

- Safety plan must be signed by agency's Accountable Executive.
- Safety plan must be approved by agency's Board of Directors or an equivalent authority (such as a mayor, county executive, or grant manager).
- A State Safety Oversight Agency must review and approve the safety plan for a rail transit agency for which it has responsibility.
 - For multimodal agencies that choose to draft one plan for the entire agency, SSOAs are only required to review the rail portions of the plan

Safety Plan Certification

- Transit agencies, and States that draft plans on behalf of small operators, must initially self-certify through FTA's Certifications and Assurances process that they have established a Safety Plan by one year after the effective date of the rule.
- Annually, transit agencies and States self-certify that they are meeting the requirements of the rule.

Record Keeping

Transit agencies must keep records related to their safety plan for three years.

- Documents related to the implementation of its Safety Management System (SMS) and results from SMS processes and activities.
- Documents, in whole or by reference, that describe the programs, policies, and procedures for carrying out the Public Transportation Agency Safety Plan (PTASP).

Documents must be made available upon request by FTA, other Federal entity, or a SSOA.

PTASP Rule Oversight Framework

FTA Role

- Guidance
- Technical assistance
- Triennial reviews

Transit Agency (State DOT) Role

- Develop (State DOT for small bus) and implement PTASP
- Annual self-certification

SSO Agency Role

- Review and approve PTASP
- Oversees RTA compliance

Performance Management Framework and the Planning Process

FTA's Safety Performance Measures (by Mode)*

Injuries

 Total amount and rate per total vehicle revenue miles.

Fatalities

 Total amount and rate per total vehicle revenue miles.

Safety Events

 Total amount and rate per total vehicle revenue miles.

System Reliability

Mean distance between major mechanical failures.

^{*}Established in FTA's National Public Transportation Safety Plan

MAP-21 Performance Management Framework

FTA

- Transit Asset Management
- National Public Transportation
- Safety Plan Public Transportation
 Agency Safety Plan

FHWA

- Safety Performance
- Pavement and Bridge Condition
- System Performance & CMAQ
- Highway Safety Improvement Program
- Highway Asset Management
 Plan

Statewide and Metropolitan Planning

Coordination with the Planning Process

- Transit agencies are required to make their safety performance targets available to States and Metropolitan Planning Organizations (MPO).
- This will assist with the selection of safety performance targets at the State and MPO levels.
- The safety performance targets will help States and MPOs develop their investment priorities for upcoming transit projects within their jurisdictions for at least the following four years.
- The FTA/FHWA Joint Rule on Planning (23 C.F.R. Part 450) provides more information on planning and coordination requirements.

State DOT and MPO Roles in the Planning Process

- Incorporate safety performance targets received from your transit agencies in to the statewide and MPO transportation plans and transportation improvement programs
- Provide guidance to transit agencies on the planning process for your state or MPO as needed
- MPOs have 180 days after the initial Safety Plans are finished (must be by July 20, 2020) to establish their own safety performance targets

Linking Safety, Transit Asset Management, and Project Planning

Performance Measures **Performance Targets** Performance-Based Plans Investment Priorities

Safety Management Systems (SMS)

Safety Management System (SMS)

Safety Management Policy

Establish A
Written
Statement of
Safety Policy,
Communicated
Throughout the
Agency, that
Includes:

Safety objectives for the agency

A employee reporting program

Organizational accountabilities and safety responsibilities for:

- I. Accountable Executive
- 2. Chief Safety Officer
- 3. Agency Leadership
- 4. Key Staff Responsible for Safety

Safety Risk Management

Identify safety hazards.

Establish A Process For:

Assess the safety risks associated with the identified safety hazards.

Prioritize safety hazards based on the level of risk.

Implement safety risk mitigations.

Safety Assurance (All Transit Agencies)

Establish Activities For:

Safety
Performance
Monitoring and
Measurement

Monitor compliance with/sufficiency of operations and maintenance procedures.

Identify mitigation(s) that may be ineffective, inappropriate, or not implemented as intended.

Conduct investigations of safety events to identify causal factors.

Monitor safety-related information.

Safety Assurance (Rail/Large Bus Systems Only)

Establish Activities For:

Management of Change

Identify and assess changes that may introduce new hazards or impact safety performance.

Continuous Improvement

Assess safety performance and correct safety deficiencies.

Safety Promotion

Elements:

Comprehensive safety training program for agency employees/contractors directly responsible for safety.

Communicate an agency's safety performance throughout the organization.

PTASP Effective Date

The rule is effective on **July 19, 2019**. Transit agencies must develop, certify, and implement an agency safety plan by **July 20, 2020**.

Please do not wait to begin development of your agency safety plan. FTA cannot waive or extend the compliance deadline.

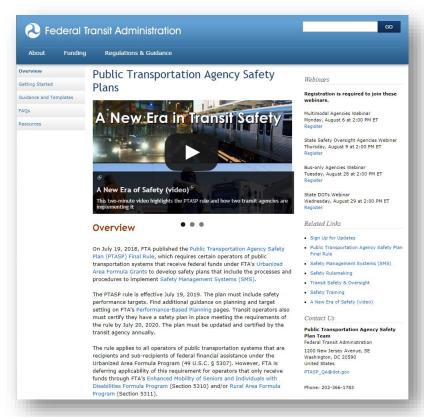

Outreach and Technical Assistance

FTA Technical Assistance

To assist with the implementation of these final rules and to reduce administrative and financial burdens, FTA is publishing templates, guidance and technical assistance, including:

- Rail (forthcoming)
 - SSPP to PTASP Roadmap
 - Rail Guidance
- Bus
 - o PTASP Template
 - o Bus Guidance

https://www.transit.dot.gov/PTASP

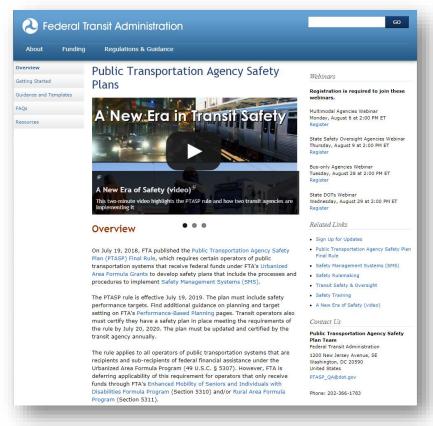

Upcoming Webinars

Webinars	Dates
	Multimodal Agencies Register Thursday, August 30 at 2:00 PM ET SSO Agencies Register
Public Transportation Agency Safety Plan Final Rule	Wednesday, September 5 at 2:00 PM ET Rail-Only Agencies Register
	Thursday, September 6 at 2:00 PM ET
	State DOTs Register Wednesday, September 12 at 2:00 PM ET
