

FTA

FEDERAL TRANSIT ADMINISTRATION

Public Transportation Agency Safety Plan Final Rule

Multimodal Agencies

Office of Transit Safety and Oversight

August 30, 2018

U.S. Department of Transportation
Federal Transit Administration

Today's Presentation

- Public Transportation Agency Safety Plan (PTASP)
 - PTASP Background
 - PTASP Revisions from NPRM to Final Rule
 - Overview of the PTASP Final Rule
 - Performance Management Framework and the Planning Process
 - Safety Management Systems (SMS)
 - Outreach and Technical Assistance
- Questions

PTASP Background

Statutory Requirements

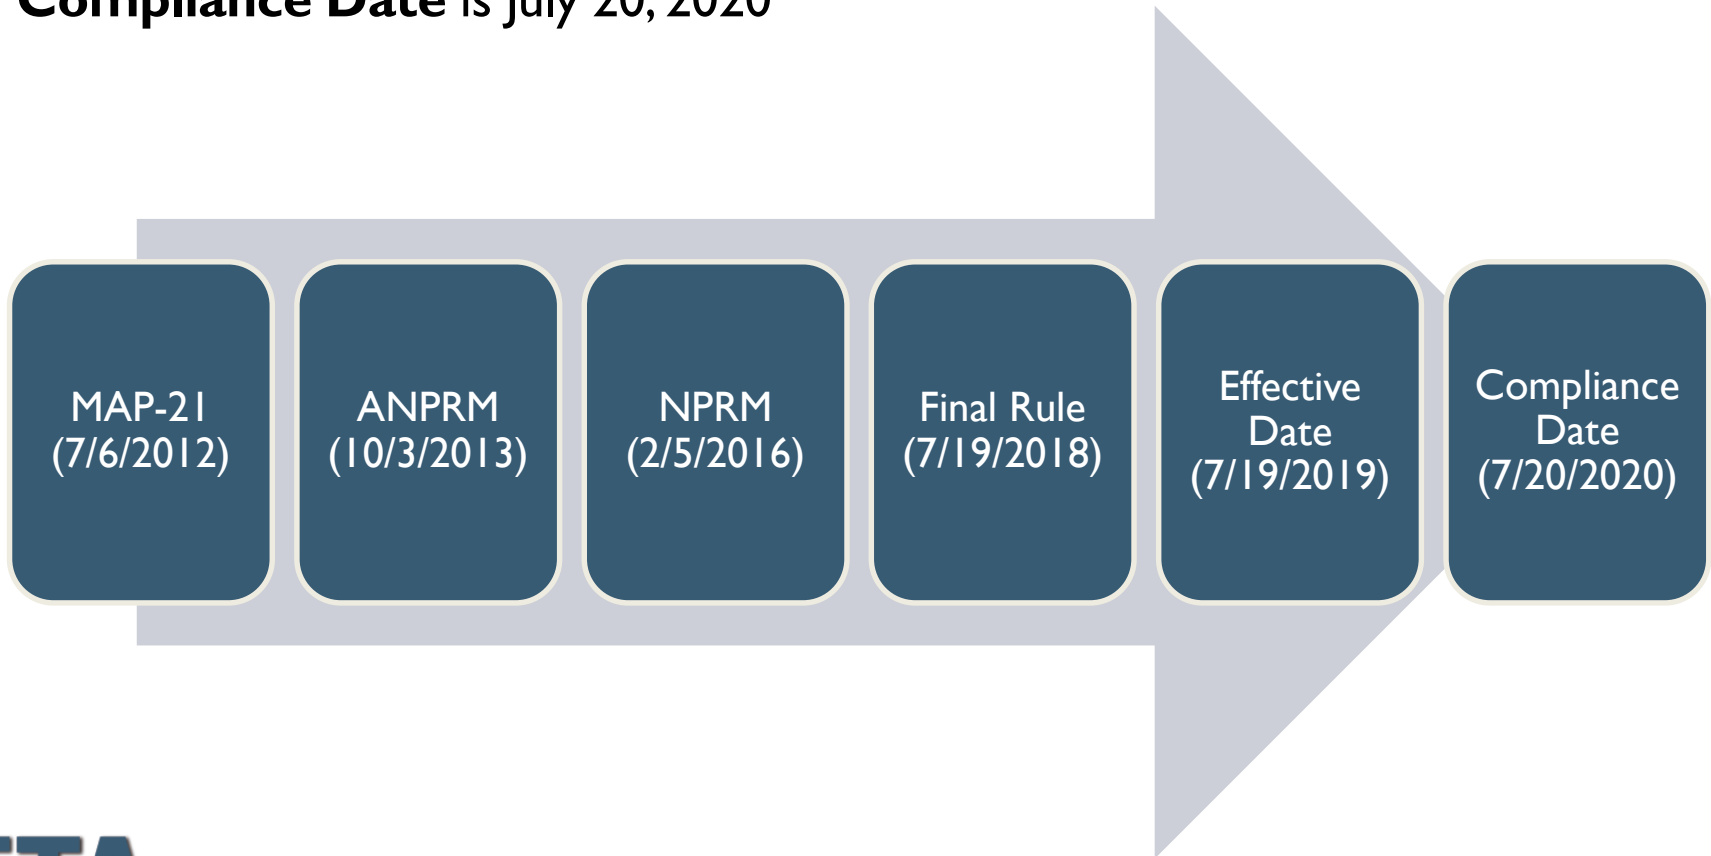

- Through MAP-21 and the FAST Act, Congress required operators of public transportation systems that receive FTA funds to develop and implement a Public Transportation Agency Safety Plan (49 U.S.C. § 5329(d)).
- FTA is implementing this requirement through the PTASP final rule (49 C.F.R. Part 673).

The PTASP Process

Final Rule Published on July 19, 2018

Effective Date is July 19, 2019

Compliance Date is July 20, 2020

Revisions from PTASP NPRM to PTASP Final Rule

PTASP NPRM Changes

NPRM Comments

- 646 comments from 77 individual commenters.
- The majority of commenters were supportive of Safety Management Systems (SMS).

| Major Issues Discussed by Commenters | | |
|--------------------------------------|--|---------------------------|
| Comment Category | FTA Response | Reduction in Burden/Cost* |
| Applicability | Final rule defers applicability to 2,000 small and rural operators under Sections 5310 and 5311. | \$26 million |
| SMS Requirements | Final rule reduces SMS requirements for small operators. | \$8.4 million |
| Record Keeping | Final rule reduces overall record keeping burden. | \$6.4 million |

**In relation to the costs calculated in the Notice of Proposed Rulemaking (NPRM)*

Other Changes

- Eliminates redundant safety performance target provisions and the Transit Asset Management Rule targets.
- Clarifies that training applies to those “directly responsible for” safety (as opposed to safety oversight).
- Clarifies that rail systems may incorporate existing emergency preparedness plans by reference.

Overview of the PTASP Final Rule

PTASP Final Rule: Table of Contents

Title 49—Transportation

PART 673—PUBLIC TRANSPORTATION AGENCY SAFETY PLANS

Subpart A—General

Sec.

673.1 Applicability

673.3 Policy

673.5 Definitions

Subpart B—Safety Plans

673.11 General requirements

673.13 Certification of compliance

673.15 Coordination with metropolitan, statewide, and non-metropolitan planning processes

Subpart C—Safety Management Systems

673.21 General requirements

673.23 Safety management policy

673.25 Safety risk management

673.27 Safety assurance

673.29 Safety promotion

Subpart D—Safety Plan Documentation and Recordkeeping

673.31 Safety plan documentation

673.33 Safety plan records

PTASP Applicability and Requirements

| Applicability | Requirements |
|---|--|
| <p>Would Apply to:</p> <ul style="list-style-type: none"> Operators of transit systems that receive FTA funds (Section 5307) and all rail transit operators (regardless of funding source). | <pre> graph LR A[Public Transportation Agency Safety Plan] --- B[Safety Management System (SMS)] A --- C[Safety Performance Targets] A --- D[Rail Agencies Only: Emergency Preparedness Plan] A --- E[Employee Reporting Program] A --- F[Approved by Accountable Executive and Board of Directors (and SSOA for rail transit agencies)] A --- G[Annual Review/Update] A --- H[Compliance with Public Transportation Safety Program/National Safety Plan] A --- I[Assignment of Chief Safety Officer] </pre> |
| <p>Would Not Apply to:</p> <ul style="list-style-type: none"> FTA recipients that do not operate transit systems. Commuter rail service regulated by FRA. Passenger ferry service regulated by USCG. Deferring applicability for operators that only receive Section 5310 and Section 5311 funds (both recipients and sub-recipients). | |

Safety Plan Development and Implementation

- Rail transit agencies and large bus operators must develop and implement their own safety plans.
- A State must develop a safety plan for small transit agencies within the State that receive Urbanized Area Formula Program funds (49 U.S.C. § 5307) and operate 100 or fewer vehicles in peak revenue service, unless the transit agency chooses to develop its own safety plan. In either case, small bus operators must implement their own safety plans.

Multimodal Safety Plan Development and Implementation

- Multimodal transit agencies can decide whether to develop and implement one plan for the entire agency, or separate plans for each mode
- No requirement to draft plans in a particular way
- Things to think about:
 - Staff available to draft and implement the plan(s)
 - Size of system
 - Number of modes

Rail Safety Plan Development and Implementation

- Rail transit agencies must develop and implement their own safety plans
 - SSOAs **cannot** draft safety plans for the RTAs in their jurisdiction
- Rail modes may use some of their SSPP in their new Safety Plan, such as:
 - Safety Policy Statement with updates to reflect SMS principles
 - Hazard Management processes translating to Safety Risk Assessment and Mitigation
 - Sources for data collection
 - Accident Investigation processes
 - Assessing Modifications and Changes and translating to Management of Change
 - Internal Safety Reviews translating to Continuous Improvement
 - Internal Safety Training Program for employees and contractors
- Rail safety plans must also follow the SSOA's Program Standard
- SSPP stays in effect until July 20, 2020, the compliance date of this rule (one year after effective date)

Bus Safety Plan Development and Implementation

- Large bus transit agencies must develop and implement their own safety plans
- Large bus transit agencies are defined as having more than 100 vehicles in peak revenue service. Small bus transit agencies receive 5307 funds and operate fewer than 100 vehicles in peak revenue service.
- Some large bus agencies may already have a safety plan, but the **requirement** to have a safety plan is new
- Large bus transit agencies must incorporate all elements of SMS in to their safety plans. Small bus transit agencies do not need to incorporate Management of Change and Continuous Improvement processes.
- Use the Safety Plan Template for Bus Transit on FTA's website

Use of Grant Funds for Safety Plan Development and Implementation

- No additional funding provided to grantees for compliance with the PTASP Final Rule
- Federal funds may be used to develop and implement a safety plan:

- | | |
|--------|--------|
| • 5303 | • 5309 |
| • 5304 | • 5337 |
| • 5307 | • 5339 |

- SSOA funds may **not** be used for any bus activities, only to be used for rail activities

Safety Plan Approval

- Safety plan must be signed by agency's Accountable Executive.
- Safety plan must be approved by agency's Board of Directors or an equivalent authority (such as a mayor, county executive, or grant manager).
- A State Safety Oversight Agency must review and approve the safety plan for a rail transit agency for which it has responsibility.
 - **For multimodal agencies that choose to draft one plan for the entire agency, SSOAs are only required to review the rail portions of the plan**

Safety Plan Certification

- Transit agencies, and States that draft plans on behalf of small operators, must initially self-certify through FTA's Certifications and Assurances process that they have established a Safety Plan by one year after the effective date of the rule.
- Annually, transit agencies and States self-certify that they are meeting the requirements of the rule.

Record Keeping

Transit agencies must keep records related to their safety plan for three years.

- Documents related to the implementation of its Safety Management System (SMS) and results from SMS processes and activities.
- Documents, in whole or by reference, that describe the programs, policies, and procedures for carrying out the Public Transportation Agency Safety Plan (PTASP).

Documents must be made available upon request by FTA, other Federal entity, or a SSOA.

PTASP Rule Oversight Framework

FTA Role

- Guidance
- Technical assistance
- Triennial reviews

Transit Agency Role

- Develop and implement PTASP
- Annual self-certification

SSO Agency Role

- Review and approve PTASP
- Oversees RTA compliance

Performance Management Framework and the Planning Process

FTA's Safety Performance Measures (by Mode)*

Injuries

- Total amount and rate per total vehicle revenue miles.

Fatalities

- Total amount and rate per total vehicle revenue miles.

Safety Events

- Total amount and rate per total vehicle revenue miles.

System Reliability

- Mean distance between major mechanical failures.

**Established in FTA's National Public Transportation Safety Plan*

MAP-21 Performance Management Framework

FTA

- Transit Asset Management
- National Public Transportation
- Safety Plan Public Transportation Agency Safety Plan

FHWA

- Safety Performance
- Pavement and Bridge Condition
- System Performance & CMAQ
- Highway Safety Improvement Program
- Highway Asset Management Plan

Statewide and Metropolitan Planning

Coordination with the Planning Process

- Transit agencies are required to make their safety performance targets available to States and Metropolitan Planning Organizations (MPO).
- This will assist with the selection of safety performance targets at the State and MPO levels.
- The safety performance targets will help States and MPOs develop their investment priorities for upcoming transit projects within their jurisdictions for at least the following four years.
- The FTA/FHWA Joint Rule on Planning (23 C.F.R. Part 450) provides more information on planning and coordination requirements.

Linking Safety, Transit Asset Management, and Project Planning

Safety Management Systems (SMS)

Safety Management System (SMS)

Safety Management Policy

Establish A
Written
Statement of
Safety Policy,
Communicated
Throughout the
Agency, that
Includes:

Safety objectives for the agency

A employee reporting program

Organizational
accountabilities
and safety
responsibilities
for:

1. Accountable Executive

2. Chief Safety Officer

3. Agency Leadership

4. Key Staff Responsible for Safety

Safety Risk Management

Establish A
Process For:

Identify safety hazards.

Assess the safety risks associated with the identified safety hazards.

Prioritize safety hazards based on the level of risk.

Implement safety risk mitigations.

Safety Assurance (All Transit Agencies)

Establish
Activities
For:

Safety
Performance
Monitoring and
Measurement

Monitor compliance with/sufficiency of operations and maintenance procedures.

Identify mitigation(s) that may be ineffective, inappropriate, or not implemented as intended.

Conduct investigations of safety events to identify causal factors.

Monitor safety-related information.

Safety Assurance (Rail/Large Bus Systems Only)

Establish Activities
For:

Management of
Change

Identify and assess changes that may introduce new hazards or impact safety performance.

Continuous
Improvement

Assess safety performance and correct safety deficiencies.

Safety Promotion

Elements:

Comprehensive safety training program for agency employees/contractors directly responsible for safety.

Communicate an agency's safety performance throughout the organization.

How is PTASP Different from SSPP?

| SSPP | PTASP |
|--|---|
| 21 fixed program elements | <p>SMS components are scalable and flexible.</p> <p>Performance-based regulation.</p> |
| Integrates risk management into the overall system design and engineering process | <p>Focuses on management of safety risk through all aspects of a transit agency's operations by addressing hazards as a day-to-day operational consideration.</p> <p>Encourages a more integrated and multi-disciplinary approach to identifying hazards and assessing safety risk.</p> <p>Specifies management accountability for resource decisions to resolve safety risk at all lifecycle stages.</p> |
| Assumes that technical compliance with engineered solutions will result in safe operations | <p>Promotes the collection and analysis of information from the frontline, supervisors, automated systems, customers, audits of normal operations, and other activities to help the rail transit agency:</p> <ol style="list-style-type: none"> 1) identify changes from the safety baseline, 2) evaluate and mitigate associated safety risks, and 3) regularly monitor the effectiveness of safety risk mitigations. |

PTASP Effective Date

The rule is effective on **July 19, 2019**. Transit agencies must develop, certify, and implement an agency safety plan by **July 20, 2020**.

Please do not wait to begin development of your agency safety plan. FTA cannot waive or extend the compliance deadline.

Outreach and Technical Assistance

FTA Technical Assistance

To assist with the implementation of these final rules and to reduce administrative and financial burdens, FTA is publishing templates, guidance and technical assistance, including:

- Rail (forthcoming)
 - SSPP to PTASP Roadmap
 - Rail Guidance
- Bus
 - [PTASP Template](#)
 - [Bus Guidance](#)

The screenshot shows the Federal Transit Administration website page for "Public Transportation Agency Safety Plans". The page features a navigation menu with "About", "Funding", and "Regulations & Guidance". A sidebar on the left contains links for "Overview", "Getting Started", "Guidance and Templates", "FAQs", and "Resources". The main content area includes a video player titled "A New Era in Transit Safety" with a play button. Below the video is a section titled "Overview" with text explaining the PTASP rule, its effective date (July 19, 2019), and the requirements for transit operators. A "Webinars" section on the right lists several upcoming webinars with dates and registration links. A "Related Links" section provides additional resources like "Sign Up for Updates" and "Public Transportation Agency Safety Plan Final Rule". A "Contact Us" section at the bottom right provides the PTASP Plan Team contact information, including the address (1200 New Jersey Avenue, SE, Washington, DC 20590), email (PTASP_QA@dot.gov), and phone number (202-366-1783).

The screenshot shows the Federal Transit Administration website page for "Public Transportation Agency Safety Plans". The page features a navigation menu with "About", "Funding", and "Regulations & Guidance". A sidebar on the left lists "Overview", "Getting Started", "Guidance and Templates", "FAQs", and "Resources". The main content area includes a video player titled "A New Era in Transit Safety" with a play button. Below the video is a section titled "Overview" with three bullet points. The text describes the PTASP Final Rule, effective July 19, 2019, which requires certain operators of public transportation systems to develop safety plans. It also mentions that the rule applies to all operators of public transportation systems that are recipients and sub-recipients of federal financial assistance under the Urbanized Area Formula Program (49 U.S.C. § 5307). A "Webinars" section lists four upcoming webinars: "Multimodal Agencies Webinar" (Monday, August 6 at 2:00 PM ET), "State Safety Oversight Agencies Webinar" (Thursday, August 9 at 2:00 PM ET), "Bus-only Agencies Webinar" (Tuesday, August 28 at 2:00 PM ET), and "State DOTs Webinar" (Wednesday, August 29 at 2:00 PM ET). A "Related Links" section includes links for "Sign Up for Updates", "Public Transportation Agency Safety Plan Final Rule", "Safety Management Systems (SMS)", "Safety Rulemaking", "Transit Safety & Oversight", "Safety Training", and "A New Era of Safety (video)". A "Contact Us" section provides the address: "Public Transportation Agency Safety Plan Team, Federal Transit Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590, United States", the email "PTASP_QA@dot.gov", and the phone number "202-366-1783".
